

February and March update for Bundoora, Greensborough, and Watsonia North

Works Notification
February - March 2025

We're completing the M80 Ring Road in Greensborough including a seamless connection to the North East Link tunnels.

Major construction is continuing along the M80 Ring Road and Greensborough Bypass, with new road bridges at the M80 Ring Road interchange and Yando Street underpass starting to take shape.

In March, bridge beams will be installed at the Yando Street underpass and the M80 Ring Road interchange, and we'll continue building new road lanes, retaining walls and permanent noise walls. We'll also establish a new worksite along Greensborough Bypass, near Yando Street.

What we'll be doing

Activities happening within our worksites include:

- installing posts and panels for permanent noise walls in some locations to minimise construction noise impacts for nearby residents
- establishing amenity facilities for workers at the M80 Ring Road interchange worksite
- excavation and ground levelling to install drainage and intelligent transport systems, investigate ground conditions and relocate utility services
- installing temporary traffic barriers, fencing, and lighting to ensure safety around worksites
- roadworks to remove and lay asphalt, paint new line markings and install signage
- piling and pouring concrete to construct new road bridges, retaining walls and noise walls
- modifying existing road infrastructure including relocating traffic lights, light poles, traffic islands, kerbs, and median strips
- removing selected trees and vegetation under the supervision of arborists and ecologists
- undertaking road and drainage maintenance.

Where we'll be working

We'll be working along:

- the M80 Ring Road, between Plenty Road and Greensborough Bypass
- Greensborough Bypass, between Plenty River Drive and Yando Street
- local roads and streets to investigate ground conditions and relocate utility services.

When we'll be working

Our standard work hours include:

	Day works 7am to 6pm, Monday to Friday, and 7am to 1pm, Saturday
	Night works 6pm to 7am, Sunday to Friday
	Weekend works 6pm Friday to 7am Monday

When we're required to work at night near homes and businesses, we'll provide advance notice.

What to expect

During these works, you may notice:

- noise, light, dust, and occasional vibration during work hours
- workers, construction vehicles, and heavy machinery on local roads and streets
- materials and equipment deliveries, including outside of standard work hours
- heavy machinery operation, such as heavy trucks, excavators, loaders, rollers, cranes, piling rigs, and chainsaws.
- temporary parking and access change to support works.

M80 Ring Road interchange and Yando Street underpass

We're constructing new road bridges at the M80 Ring Road interchange and Yando Street pedestrian underpass, which will be built in sections to keep traffic moving.

From March, we'll begin delivering and installing 'Super-T' beams for these bridges.

The new M80 Ring Road interchange will replace the existing signalised intersection, allowing free-flowing traffic between the M80 Ring Road, Greensborough Bypass, and the North East Link tunnels.

Managing construction impacts

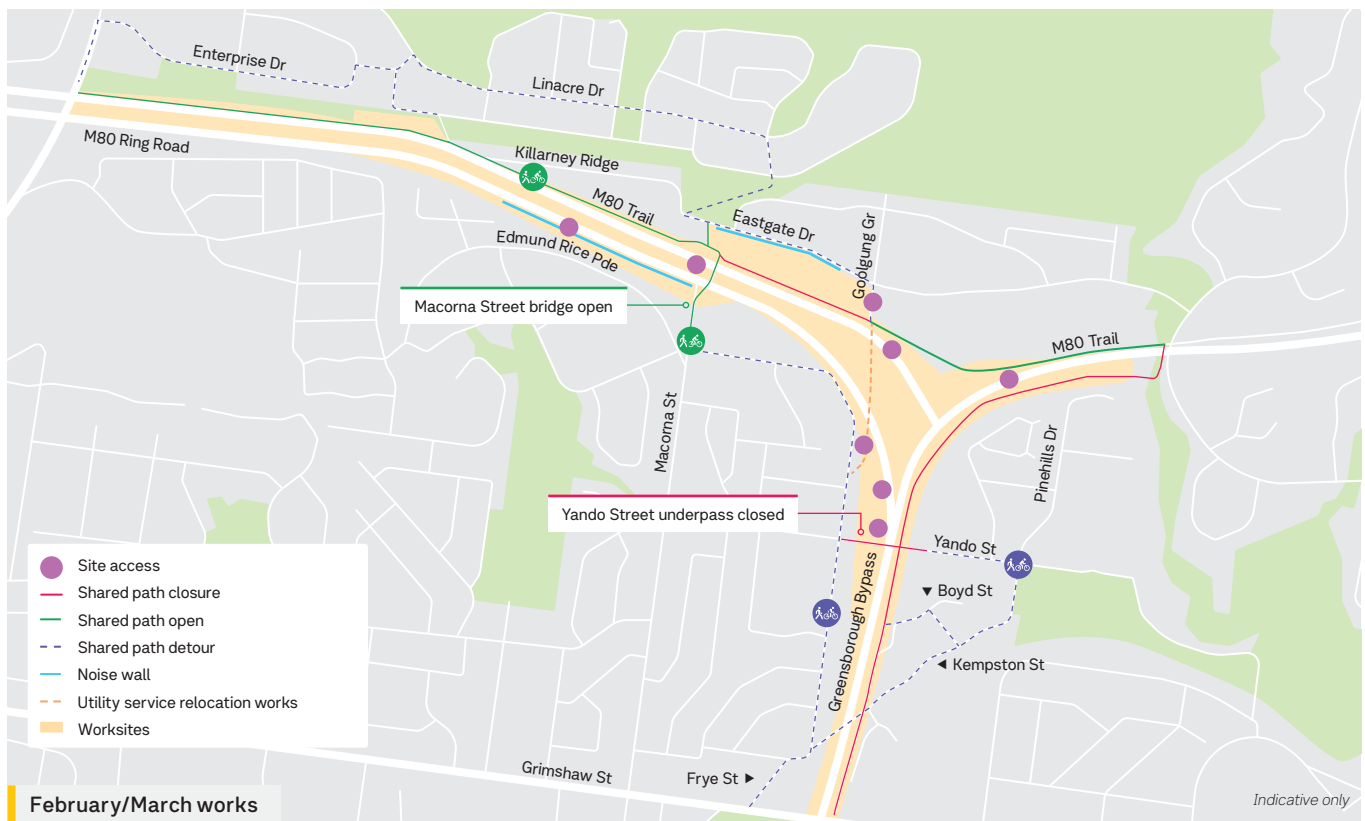

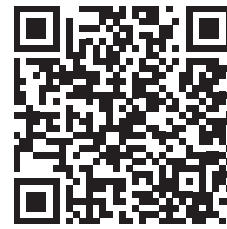

We manage our works responsibly in line with strict project requirements including:

- keeping residents and businesses informed when work is happening nearby
- using clear signage and traffic controls to safely guide drivers, cyclists, and pedestrians
- securing worksites with fencing, barriers, and safety measures
- monitoring and managing noise, dust, and vibration levels in real time
- minimising light spill with carefully directed lighting
- implementing environmental controls to prevent dust and water run-off
- containing workforce parking within designated worksites.

Transport disruptions

Changed conditions for drivers, cyclists and pedestrians include:

- Greensborough Bypass Path closure, between Plenty River Drive and Grimshaw Street, until late 2026
- Planned disruptions on the M80 Ring Road, Greensborough Bypass and paths with more information at: bigbuild.vic.gov.au/disruptions or scan the QR code.

Schedule is subject to change. Visit bigbuild.vic.gov.au/roads for schedule changes. For more information call 1800 105 105 or visit the Hub at 17 Watsonia Road, Watsonia.
