

Works notice

Franklin Street reconstruction

Franklin Street

Mid-June to July 2025

We're rebuilding Franklin Street into it's final configuration from mid-June 2025.

When we'll be working

- Between **7am and 2:30am** from **mid-June** to **late July**
- During the night from **6pm** to **4am** on:
 - **18 to 19 June**
 - **2 to 4 July**
 - **8 to 9 July**
- There will be no vehicle access to Franklin Street during night works. Vehicle access will be maintained outside of these dates and during the day.

The timing of work may change due to weather.

What we'll be doing

- Setting up the site
- Removing the existing road surface
- Building bike separator kerbs
- Laying asphalt to form the new road surface
- Line marking the new road.

What to be aware of

- Major road works are required to rebuild Franklin Street into it's final configuration
- These works include profiling, asphaltting and kerb works which will produce medium to high levels of noise and some vibrations
- From 11 June to late July, a short-term eastbound lane closure will be in place between Stewart and Swanston streets
- Franklin Street will be closed overnight between Elizabeth and Swanston streets from 6pm to 5am on 18 to 19 June, 2 to 4 July and 8 to 9 July. During these times, no vehicles will be able to access Franklin Street between Elizabeth and Swanston Street including for deliveries and waste collection
- Franklin Street between Elizabeth and Stewart streets will remain open to vehicles during the day
- Buildings with vehicle access via Franklin Street are advised to speak to their building manager about alternative car park access during these works
- Access to the Milano car park and CBD Park will be via Therry Street only during night work closures under the direction of traffic control
- Alternative parking arrangements are available for residents with car park access within the works area. Contact the Metro Tunnel Project Team on cyp@metrotunnelcyp-dc.com.au or **1800 105 105**
- During night works, pedestrians can only cross Franklin Street at the dedicated pedestrian crossings at Elizabeth and Swanston streets
- To safely carry out these works, barriers will be set up on the footpath
- A pedestrian diversion will be in place at the eastern crossing at Franklin and Elizabeth Street
- To ensure property access is maintained during these works, there will be no on street parking and limited loading zones available on Franklin Street during the works period. We encourage people to use surrounding streets or building loading bays during this time
- Pedestrian access to businesses and residential buildings will be maintained at all times
- Waste collections are to be scheduled between 4am and 6am during night road closure dates. Contact your building manager for more information.

Where we'll be working

- Franklin Street between Elizabeth and Swanston streets.

We appreciate your patience while we undertake these works. If you have any questions or concerns, please contact the Metro Tunnel Project information line on **1800 105 105**.
