

- 1 A new traffic light free connection for the Ring Road, Greensborough Bypass, Greensborough Road and North East Link.
- 2 Greensborough Road rebuilt on both sides of North East Link for local, toll-free trips.
- 3 Through traffic on North East Link and Greensborough Road under Grimshaw Street to keep traffic flowing and cut congestion in all directions.
- 4 New walking and cycling links, bridges and underpasses to connect from the Western Ring Road Trail to the Eastern Freeway and Yarra River trails.
- 5 Opportunities for enhanced local traffic, walking, cycling and public transport links at Watsonia station and shops are still being considered.
- 6 North East Link lowered deep under green bridges and local roads to keep communities connected.
- 7 Ramps in and out of the North East Link tunnels connecting to Greensborough Road and Lower Plenty Road.
- 8 Victoria's longest road tunnels to protect the environment and communities.
- 9 Ramps in and out of the North East Link tunnels connecting to Manningham Road and Bulleen Road.
- 10 Bulleen Road kept open and connected to the Eastern Freeway for local use with safer, easier crossings to schools, sports fields, parklands and community clubs.
- 11 Tunnel portals next to Bulleen Road with seamless, traffic light free connections to and from the Eastern Freeway.
- 12 Major upgrades to commuter bike routes along the Eastern Freeway including new crossings under Burke Road, Belford Road and over the Yarra River.
- 13 A major upgrade of the Eastern Freeway to make it work smarter and faster. New lanes where they are needed most, separated express and destination lanes, and new traffic management technology will all work together to increase capacity, bust congestion and slash travel times.
- 14 A consistent noise standard of 63 decibels along the length of the project including the Eastern Freeway upgrades to give residents better protection from noise.
