

Tucker Road

We're installing a signalised pedestrian crossing at Tucker Road. This will make it safer for pedestrians to cross South Road and for vehicles to turn right into Tucker Road.

-  Bus lane
-  Footpath
-  New pedestrian crossing
-  Vehicles can turn right when pedestrian signals are activated and when the right turn lane is at capacity
-  Removing U-turn break
-  Moving the bus stop

For illustrative purposes only, not to scale
