

Works Notification

Site establishment and out of hours works

Jacksons Hill, Sunbury

2-31 May 2022

As part of the Sunbury Line Upgrade, we are delivering power upgrades that will enable bigger, more modern trains to run on the Sunbury Line. To support upgrades to the Jacksons Hill substation we will be undertaking site establishment activities and out of hours works in your area.

What we are doing

Site establishment activities

- Establishing a small project site compound at the Jacksons Hill substation near Lark Court
- Installing temporary fencing, worker amenities and a laydown area for the storage of construction materials

Out of hours works

- Out of hours works in the rail corridor at the Jacksons Hill substation
- Excavating trench routes and installing new underground cables between the substation and rail corridor
- Non-destructive digging (NDD) to investigate ground conditions and confirm the area is free of underground services
- Connecting cables and electrical equipment that will supply power to the Sunbury Line
- Using a small crane to help remove and dispose of overhead electrical structures within the rail corridor.

When

Site establishment activities

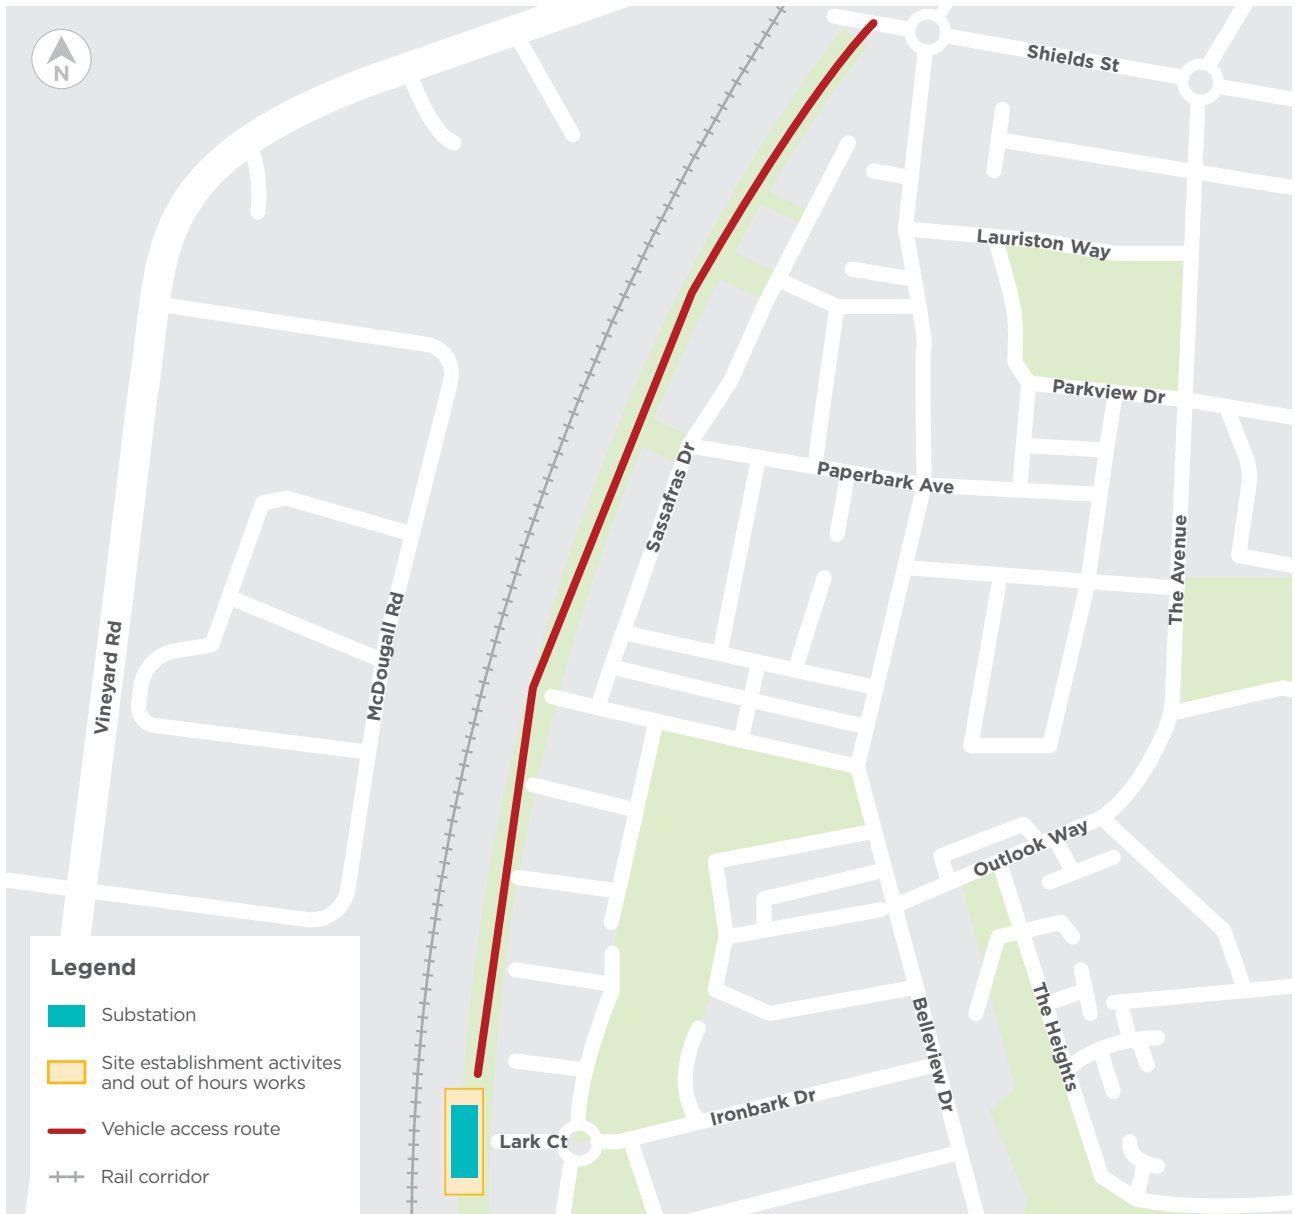

- Monday 2 May to Tuesday 31 May 2022
- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays

Out of hours works

- 9pm, Friday 6 May to 5am, Monday 9 May
- 9pm, Friday 20 May to 5am, Monday 23 May

What to be aware of

- These works are expected to generate medium to high levels of noise and low levels of dust and vibration
- Construction vehicles will access the site via the dirt road on Shields Street and access the rail corridor via Watsons Road at the level crossing in Diggers Rest
- Traffic controllers and signage will be present at times to assist with vehicle, pedestrian and cyclist movements around the area
- For the safety of rail users and our workers, some of these activities can only be performed out of hours when trains are not running
- Generator powered lighting towers may be required at night for safety. Where possible, lighting will be directed away from residential properties
- Ground conditions in the local area contain basalt rock which, if encountered, will need to be broken to facilitate these works
- Some works may take place out of hours on weekdays throughout this period. More details about these works will be provided closer to the date.

Travel changes

To ensure the out of hours works can take place safely, buses will replace trains on sections of the Sunbury Line at different times in **May and June 2022**.

For further details and to plan your journey please visit ptv.vic.gov.au or call **1800 800 007**.
