

Works Notification

Substation works

Sydenham Road, Delahey

Ongoing to early October 2022

As part of the Sunbury Line Upgrade, we are delivering power upgrades that will allow bigger, more modern trains to run on the Sunbury Line. We wish to advise of ongoing and upcoming works to build a new electrical substation on Sydenham Road, Delahey.

What we are doing

Septic tank installation works

- Installing a new underground septic tank system that will connect to the new substation building
- Asphalt cutting and excavation to enable the installation of underground pits
- Backfilling and asphaltting over excavated areas to reinstate the site.

Water connection works

- Water connection works are required to connect the new Sydenham Road substation with the nearby water connection point on McNicholl Way
- Using excavators, NDD and boring machines to dig underground and install pipes that will service the new substation building
- Underground boring works will take place from the eastern side of Sydenham Road and travel underneath the road to the western side
- Excavation works will be required on Sydenham Road to create a retrieval shaft for the underground boring machinery.

24-hour works

- Connecting cables and turning on electrical equipment within the new substation, that will increase the power supply to the Sunbury Line
- Using a winch truck to help pull new cables through underground conduits from the substation to new equipment on the opposite of the rail corridor
- Using hand tools to help connect new cables within the rail corridor.

When

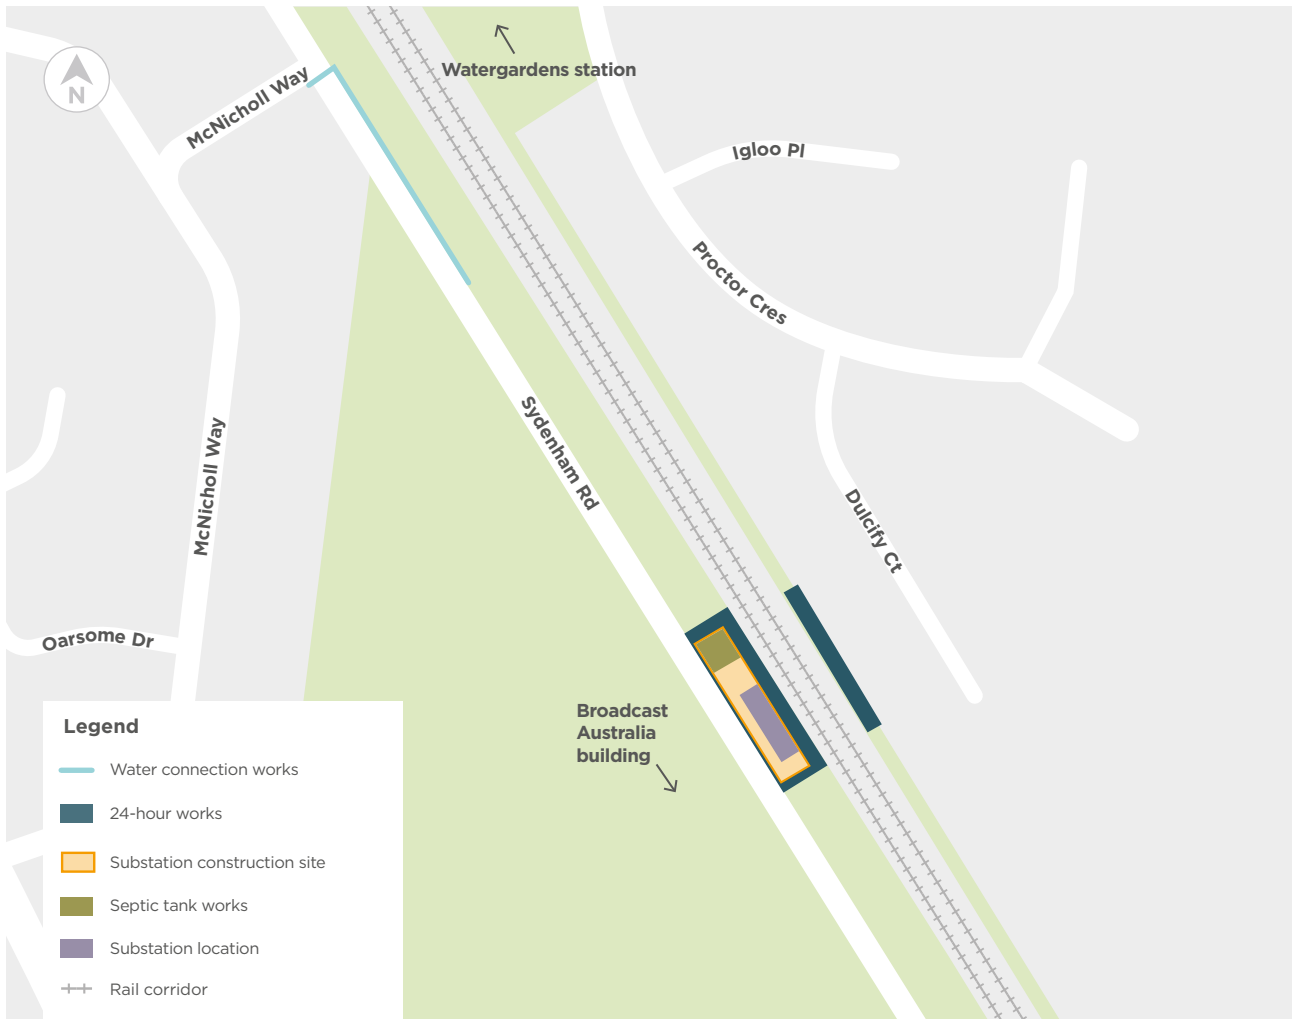

Septic tank installation and water connection works

From early August to early October 2022

- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays

24-hour works

- 8pm, Saturday 13 August to 4am, Wednesday 24 August 2022

What to be aware of

- These works are expected to generate medium to high levels of noise, dust and vibration
- Ground conditions in the local area contain basalt rock which, if encountered, will need to be broken to facilitate these works
- There will be an increase in construction vehicles accessing Sydenham Road. Traffic controllers will be present at times to assist with vehicle, pedestrian and cyclist movements around the area
- Generator-powered lighting towers will be required at night for safety
- During this time there will be other project works taking place in this area along Sydenham Road.

Travel changes

To ensure the out of hours works can take place safely, buses will replace trains from **8pm Saturday 13 August to last service on Tuesday 23 August**, between Sunshine and Sunbury stations. Please plan ahead and allow extra travel time during this period

For further details and to plan your journey please visit ptv.vic.gov.au or call **1800 800 007**.
