

Monthly construction update

South Yarra

July 2023

Works to construct the Metro Tunnel's eastern entrance in South Yarra are progressing. This update provides an outline of current and upcoming works in your area throughout July 2023.

Construction snapshot

In July, works within the South Yarra precinct will include:

- Rail tunnel fit out
- Site shed removal
- Constructing the egress building surface structure
- Hard landscaping works and preparations for the installation of public artwork.

Further information on these works can be found overleaf or at metrotunnel.vic.gov.au

When are we working?

Normal construction hours

7am to 6pm, Monday to Friday
7am to 1pm, Saturdays.

Some activities may be required to continue slightly past these hours. All efforts will be made to complete activities as scheduled.

Out of hours

Some works are required to take place out of normal construction hours.

24 hours

24 hour works are sometimes required during peak construction activities.

Works in your area

Rail tunnel fit out

William Street bridge

Ongoing until August 2023

- Rail tunnel fit out works will be ongoing with mechanical, electrical and plumbing deliveries arriving to site via William Street bridge
- The crane on William Street bridge will be used to lower equipment and materials into the decline structure for these rail tunnel fit out works
- The crane will operate intermittently during the day. Please note that there may be some operation of the crane at night, for use during emergencies
- Works will continue 24/7 within the decline structure and tunnels for rail tunnel fit out
- William Street bridge will remain closed while it is the main access point for rail tunnel fit out works at South Yarra
- Trucks will travel to and from site via Toorak Road into William Street or via Chapel Street and Arthur Street.

Site shed removal

William Street

Early July 2023

- The removal of the site sheds on William Street will commence in early July
- The site sheds will be removed using a crane to load onto trucks.

Egress building construction

Osborne Street

Ongoing

- Continuing the installation of the fin cladding and façade
- Continuing waterproofing works and mechanical, electrical and plumbing connection works
- Building and fit out trades will continue within the egress building
- Removal of the temporary hardstand which will require the use of excavators
- Kerb, footpath and roadway installations and utility connections will commence in July within the Osborne Street site boundary.

Hard landscaping works

South Yarra Siding Reserve and Arthur Street

July to late 2023

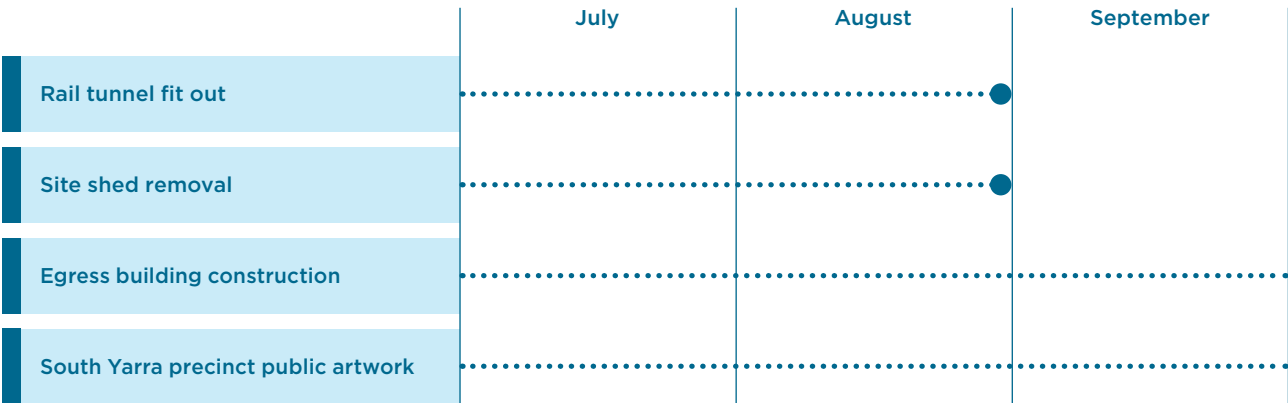

- In July, works will start to construct the concrete foundations for the public artwork within the South Yarra Siding Reserve and Arthur Street pocket park prior the public artwork installation later in 2023
- Works will involve the use of non-destructive digging (NDD), a concrete truck, and crews with handheld tools. NDD uses high-pressure water to excavate the ground without damaging or impacting the existing underground services
- Works are expected to generate medium levels of noise with some high-level peaks when excavation is in progress
- To know more about the South Yarra precinct artwork, please visit <https://bigbuild.vic.gov.au/projects/metro-tunnel/community/art/legacy-artwork>.

Indicative only

Look ahead for 2023

Program is indicative and subject to change

High Capacity Signalling technology testing

- Out of hours testing will continue intermittently on the Cranbourne and Pakenham lines throughout 2023 to enable High Capacity Signalling testing.
- Testing of the High Capacity Signalling technology is expected to generate low levels of noise.

To know more about the High Capacity Signalling technology, please visit bigbuild.vic.gov.au
