Works update – temporary driveway disruption

As part of the West Gate Tunnel Project, we are diverting a large water main pipe entrance between 13 November and Tuesday 19 November that runs under the West Gate Freeway to make way for the tunnel entrance.

The works involve installing a water main valve at the end of Bena Street. During this period, vehicle access to your driveway will be temporarily disrupted.

Night works are required and a summary of what you can expect is outlined below.

Temporary disruption to your driveway access

Wednesday 13 November – Tuesday 19 November 2019

- the end of Bena Street will be closed
- the closure will be between 71 and 80 Bena Street (inclusive). Please see map on the next page
- vehicle access to your driveway will be temporarily blocked
- footpath access to your property will remain
- night works over the weekend from Friday 15 November until Sunday 17 November, and
- if you require your vehicle during this time, please ensure it is moved out of your driveway before the closure date.

When you need to move your vehicle:

- If you need access to your vehicle during the closure dates mentioned above, please ensure your vehicle is moved out of your driveway before 7am on the morning of the closure, Wednesday 13 November.

Where to park your vehicle:

Date	Location
Wednesday 13 to Tuesday 19 November	parking temporarily unavailable at the end of Bena Street – please see map over the page
Wednesday 13, Thursday 14 and Tuesday 19 November	parking will be unavailable along Bena Street (on both sides), between Benbow Street and the West Gate Freeway to assist with delivering and removing large equipment
Thursday 14 to Monday 18 November	parking will be unavailable on the east side of Bena Street (side closest to Williamstown Road)

- if you park your vehicle at these locations during the above times, you will be unable to access your vehicle, and
- it is recommended that you park your vehicle in nearby local streets during these times. Please be aware that local parking restrictions will still apply.

Waste collection:

- Please place rubbish bins on the **west** side of Bena Street for collection on Thursday 14 November. Please see map overleaf for location details.

Williamstown Road water main diversion

Work is also underway at Williamstown Road to divert the large water main pipe underneath the freeway.

This will involve replacing a section of the new water pipe beneath the freeway, at Williamstown Road and the inbound exit ramp. See map for location details.

The works will include:

- day and night works over two consecutive weekends (additional weekend work may be required) starting from **Friday 8 November**
- full closure of the Williamstown Road inbound exit ramp during this time
- we will be in contact with directly impacted residents prior to these works starting.

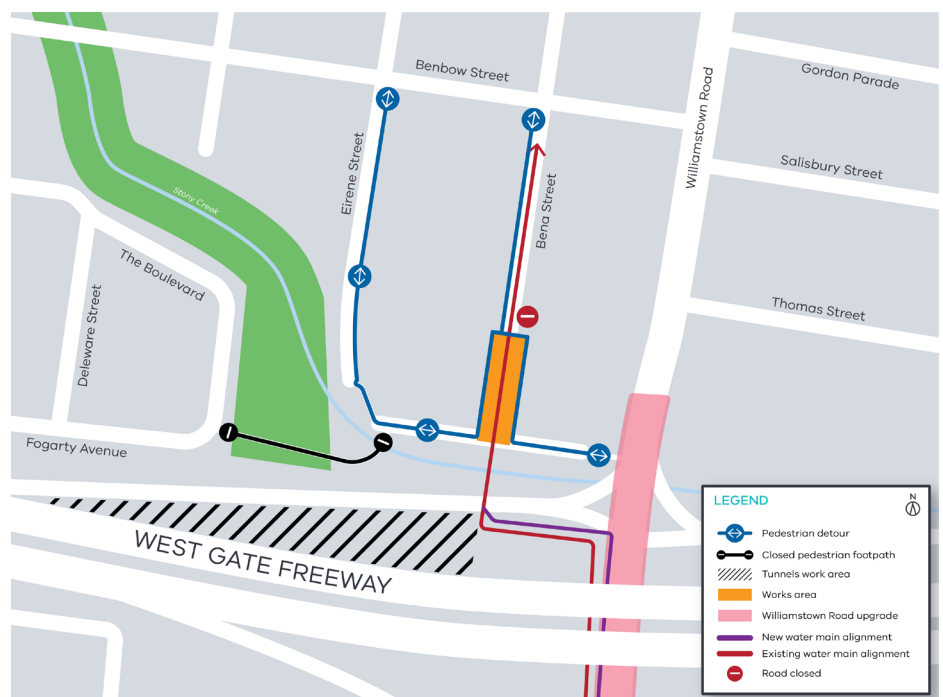

What you could expect:

- construction activity will be noisy, including machinery and trucks which will increase at times while we excavate the road and remove and replace a section of the water main pipe
- construction lights will be used during night works. Lights, where possible, will be directed away from residential homes
- work will be completed behind safety barriers
- a pedestrian detour will be in place – please see map below
- increase in construction vehicles regularly using designated routes including local roads within residential areas. This will include light vehicles, excavators, heavy trucks, concrete trucks and delivery of large equipment
- water spray trucks and road sweepers will be used to manage dust and dirt during works, and trucks removing dirt and rock from the site will be covered
- traffic changes will be required and signed detours will be in place – latest traffic updates are available at www.westgatetunnelproject.vic.gov.au/travel disruptions.

These works will generally be carried out from Monday to Friday between 7am - 6pm and Saturdays between 7am - 1pm, however out of hours and night works will be required.

Please note that works may be rescheduled in the event of unexpected weather conditions or other unavoidable circumstances.

See map on the right for location of works
