Works notification – underground services investigations: night works Dynon Road

To prepare for the construction of the retaining wall supporting the new walking and cycling bridge, underground utility (services) investigation works will take place on the Dynon Road bridge westbound footpath north of Anderson Street, West Melbourne.

These works will be completed between 7 – 10 December from 7:30pm to 7:00am with lane closures in place along a section of Dynon Road. Pedestrian detours will be in place to allow safe movement through the work area (refer map).

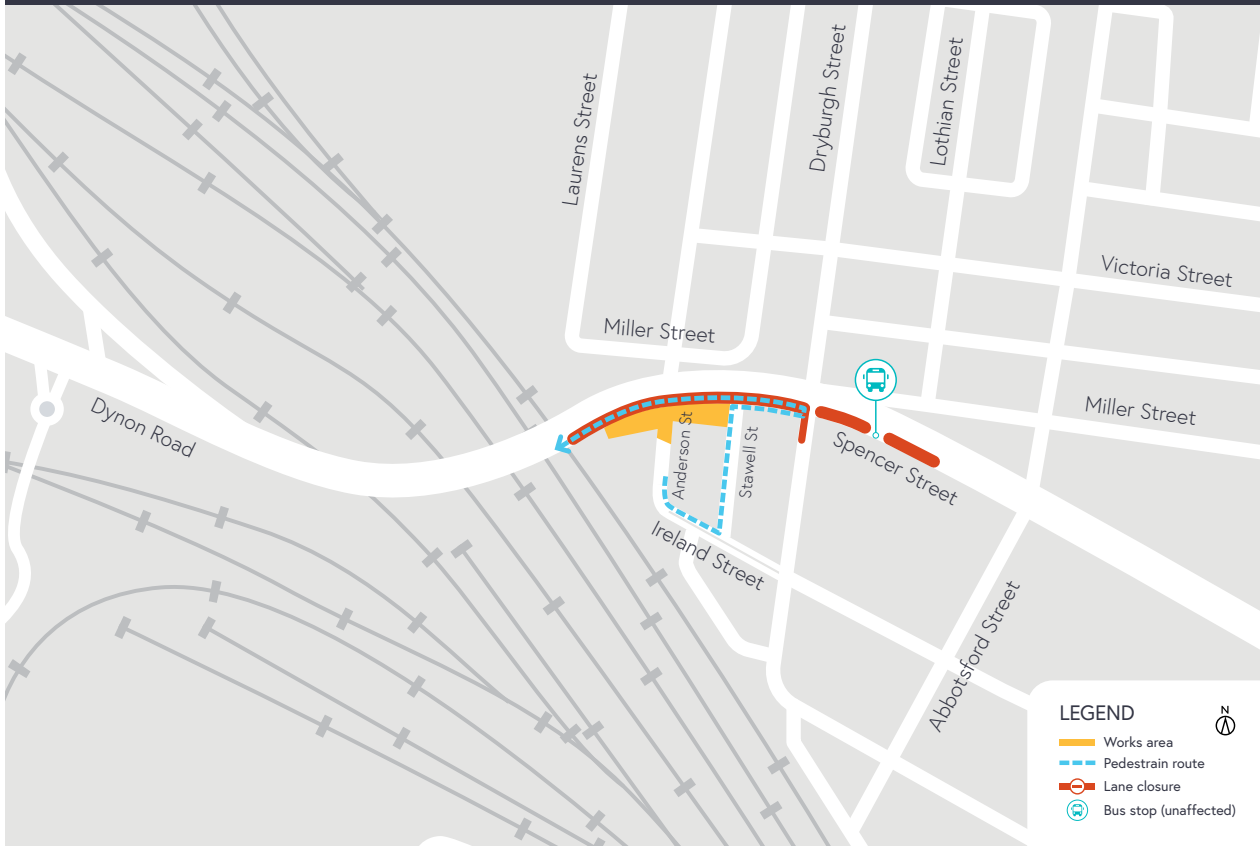

What to expect and when

These works have been planned to minimise impacts on the local community, pedestrians and motorists. We don't expect noise from the work to be disruptive. There will be no impact to access of the bus stop on Spencer Street.

We will be monitoring the works to maintain acceptable noise levels over their duration.

	Impact	Date
	Occasional nightwork noise. <i>We expect noise to be low to medium with noisier activities, i.e. saw cutting/coring, scheduled at the beginning of night shifts.</i>	7 – 10 December 2021
	Occasional nightwork lighting. <i>Lighting will be angled away from residences wherever possible during nightworks.</i>	7 – 10 December 2021
	Lane and pedestrian path closure. <i>Lane closures in place along a section of Dynon Road. Pedestrian path detour also in place.</i>	7 – 10 December 2021

DYNON ROAD NIGHTWORKS

Hours of work

These works will be done between the hours of 7:30pm to 7:00am from Tuesday 7 December until Friday 10 December 2021.

If the weather is poor, or there are any unexpected events, we may need to reschedule these works.

Thank you

We appreciate our work can be disruptive and thank you for your understanding.

To learn more about the impacts, or if you have any concerns once the construction activities have commenced, please give the team a call on 1800 105 105 or email us on info@wgta.vic.gov.au
