

Major road closure works

What to expect during major construction

The Victorian Government is duplicating the Cranbourne Line, removing the last two level crossings on the line and have built a new Merinda Park Station – improving safety, reducing congestion and allowing for more trains, more often. Once complete, the Cranbourne Line will be completely level crossing free.

What's coming up

We've been working hard throughout 2023 to construct the new road bridge.

We'll be working around the clock during a 43-day construction blitz to complete the last stage of the new road bridge on Camms Road from **7pm Wednesday 18 October to 1am Thursday 30 November**.

Major works will take place to connect the new road bridge to Camms Road, construct the new Fairfield Street connection and roundabout at Murray Court.

To complete these works safely, we will temporarily close Camms Road for about six weeks.

The Cranbourne line will also temporarily close in mid October and late November to safely lift the bridge beams, make rail signal updates and complete the new road bridge.

The new road bridge and surrounding areas will include new walking and cycling connections, improving local connections to the station precinct.

Project benefits

More reliable travel times

Over 30,000 new trees, shrubs and plants

New walking and cycling connections

Improved lighting to create safer spaces

Works continuing on site

VICTORIA'S BIG BUILD

Camms Road, Cranbourne

Plaza view - artist impression. Subject to change

Building the bridge deck

The new road bridge is made up of 22 concrete beams, manufactured locally here in Melbourne. Each beam weighs around 34 tonnes and is between 23 and 27 metres long.

During the road closure, a 750-tonne crane will lift the beams into place over the rail line and Fairfield Street. We will then install precast kerb and safety screening along the bridge deck.

Connecting the road bridge to Camms Road

We'll connect the east and west side of the bridge to the existing Camms Road pavements. We'll also build a new roundabout connecting Camms Road to Murray Court and Fairfield Street.

While Camms Road is closed, we will install the final retaining wall panels on each side of the bridge.

We will then install safety screening along the bridge, build new pedestrian connections and lay asphalt over the bridge.

We will resurface some areas of Camms Road as part of our works.

What to expect

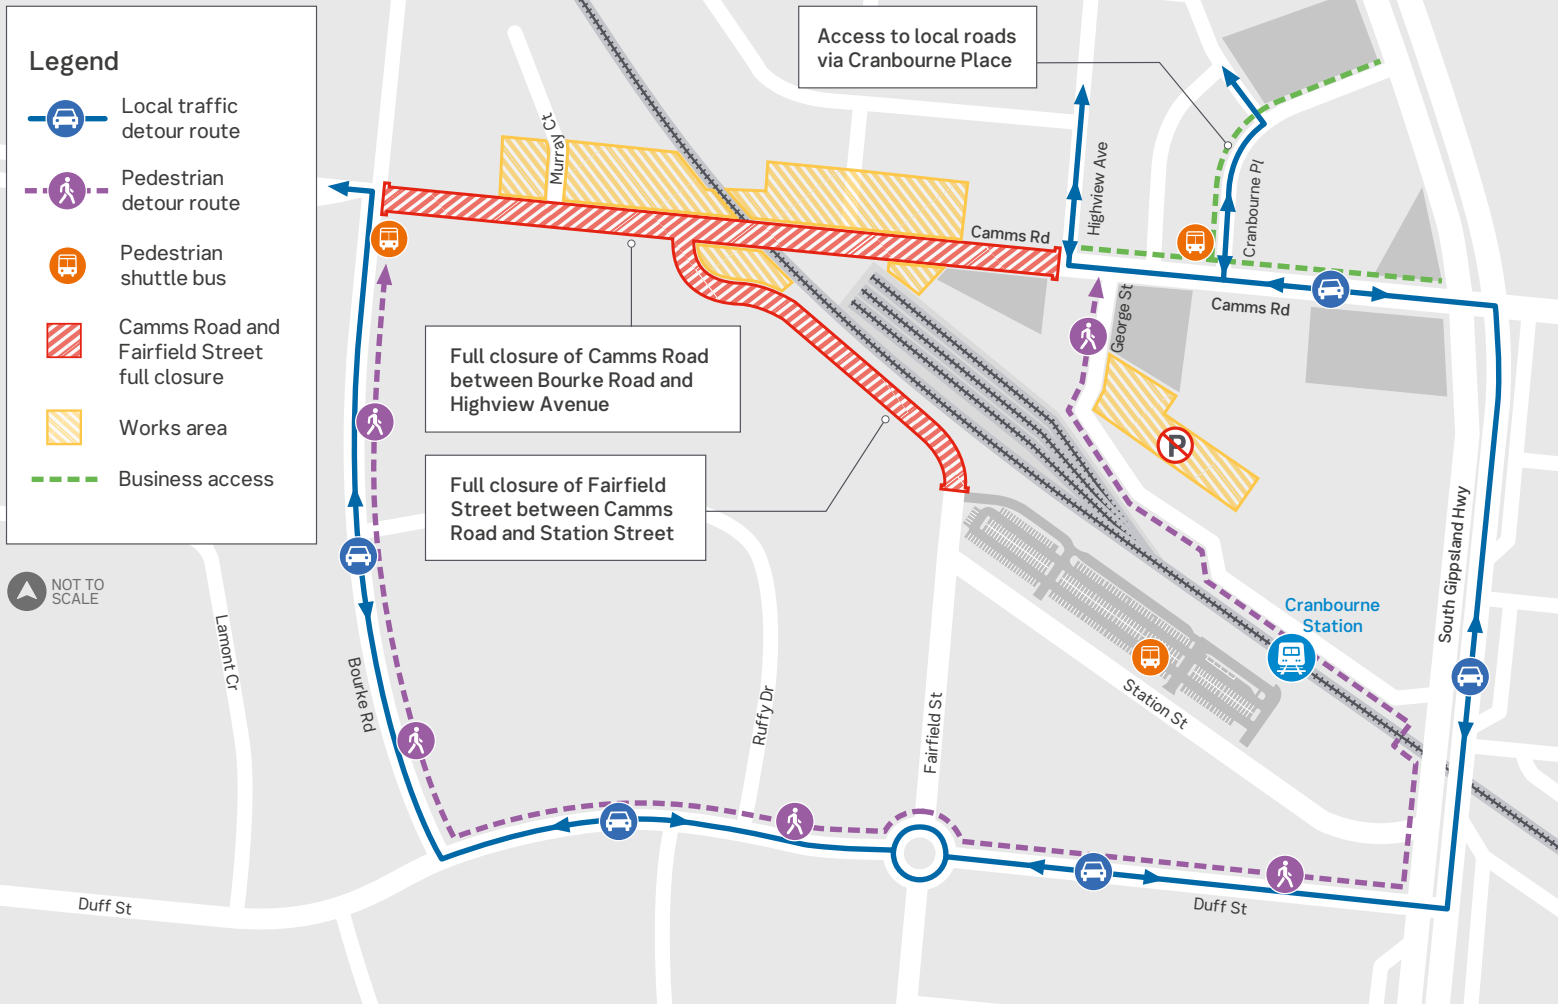

Detours, reduced speed limits and increased travel times through the area

Noise, dust and vibration

You'll notice increased heavy vehicle activity, construction traffic and construction workers moving through the area

Temporary changes to how you travel

Road

Camms Road will be closed between Bourke Road and Highview Avenue from **7pm Wednesday 18 October until 1am Thursday 30 November**.

Detours will be in place via Bourke Road, Duff Street and South Gippsland Highway.

Fairfield Street will also be closed between Camms Road and Station Street during this time.

Bus

Bus services for routes **760, 791, 795, 796, 798, 897, 898 and 982** will detour along an alternative path while the road closure is in place. For more information, visit ptv.vic.gov.au

Pedestrian

From **7pm Wednesday 18 October until 1am Thursday 30 November** pedestrian access will be closed on Camms Road between Bourke Road and Highview Avenue.

A shuttle service will be in place to assist pedestrians with moving through the area.

Rail

Buses will replace trains on the Cranbourne Line between Dandenong and Cranbourne from first service **Thursday 19 October until last service Monday 23 October**.

Temporary changes to parking

From **7pm Wednesday 18 October until 1am Thursday 30 November**, on-street parking will close on:

- Camms Road between Bourke Road and Cranbourne Place.
- Fairfield Street between Station Street and Duff Street.
- Station Street between Cranbourne Station and South Gippsland Highway.

A section of the George Street car park will be closed from **Monday 9 October until Friday 15 December**.

What's coming next

Once the new road bridge is complete, works will continue until mid 2024. We'll continue works to upgrade the Cranbourne Station car park until mid 2024 as part of the Car Parks for Commuters program and Growth Area Incentive Contribution, adding 400 new and upgraded car spaces.

We will also construct the new plaza, connecting the new and existing pedestrian paths around the road bridge.

Project timeline

- 
Mid 2021
 Design solution confirmed
 Community consultation
 Early site investigations
- 
Early 2022
 Contract award
 Early works
 Site establishment
- 
Mid 2022
 Major works commence
- 
Late 2023
 Major road closure
 New bridge open to traffic
- 
2024
 Level crossing removed
 New Cranbourne Station car park open
 Project complete

Timeline subject to change.
