

STATE LIBRARY STATION COMMUNITY REFERENCE GROUP

CROSS YARRA PARTNERSHIP
FRIDAY 5 JUNE 2020

STATE LIBRARY STATION COMMUNITY REFERENCE GROUP

Jodie Barrington, CBD Precinct Lead, CYP D&C

Melinda Kelly, State Library Station Stakeholder Engagement Manager, CYP D&C

Construction partner:

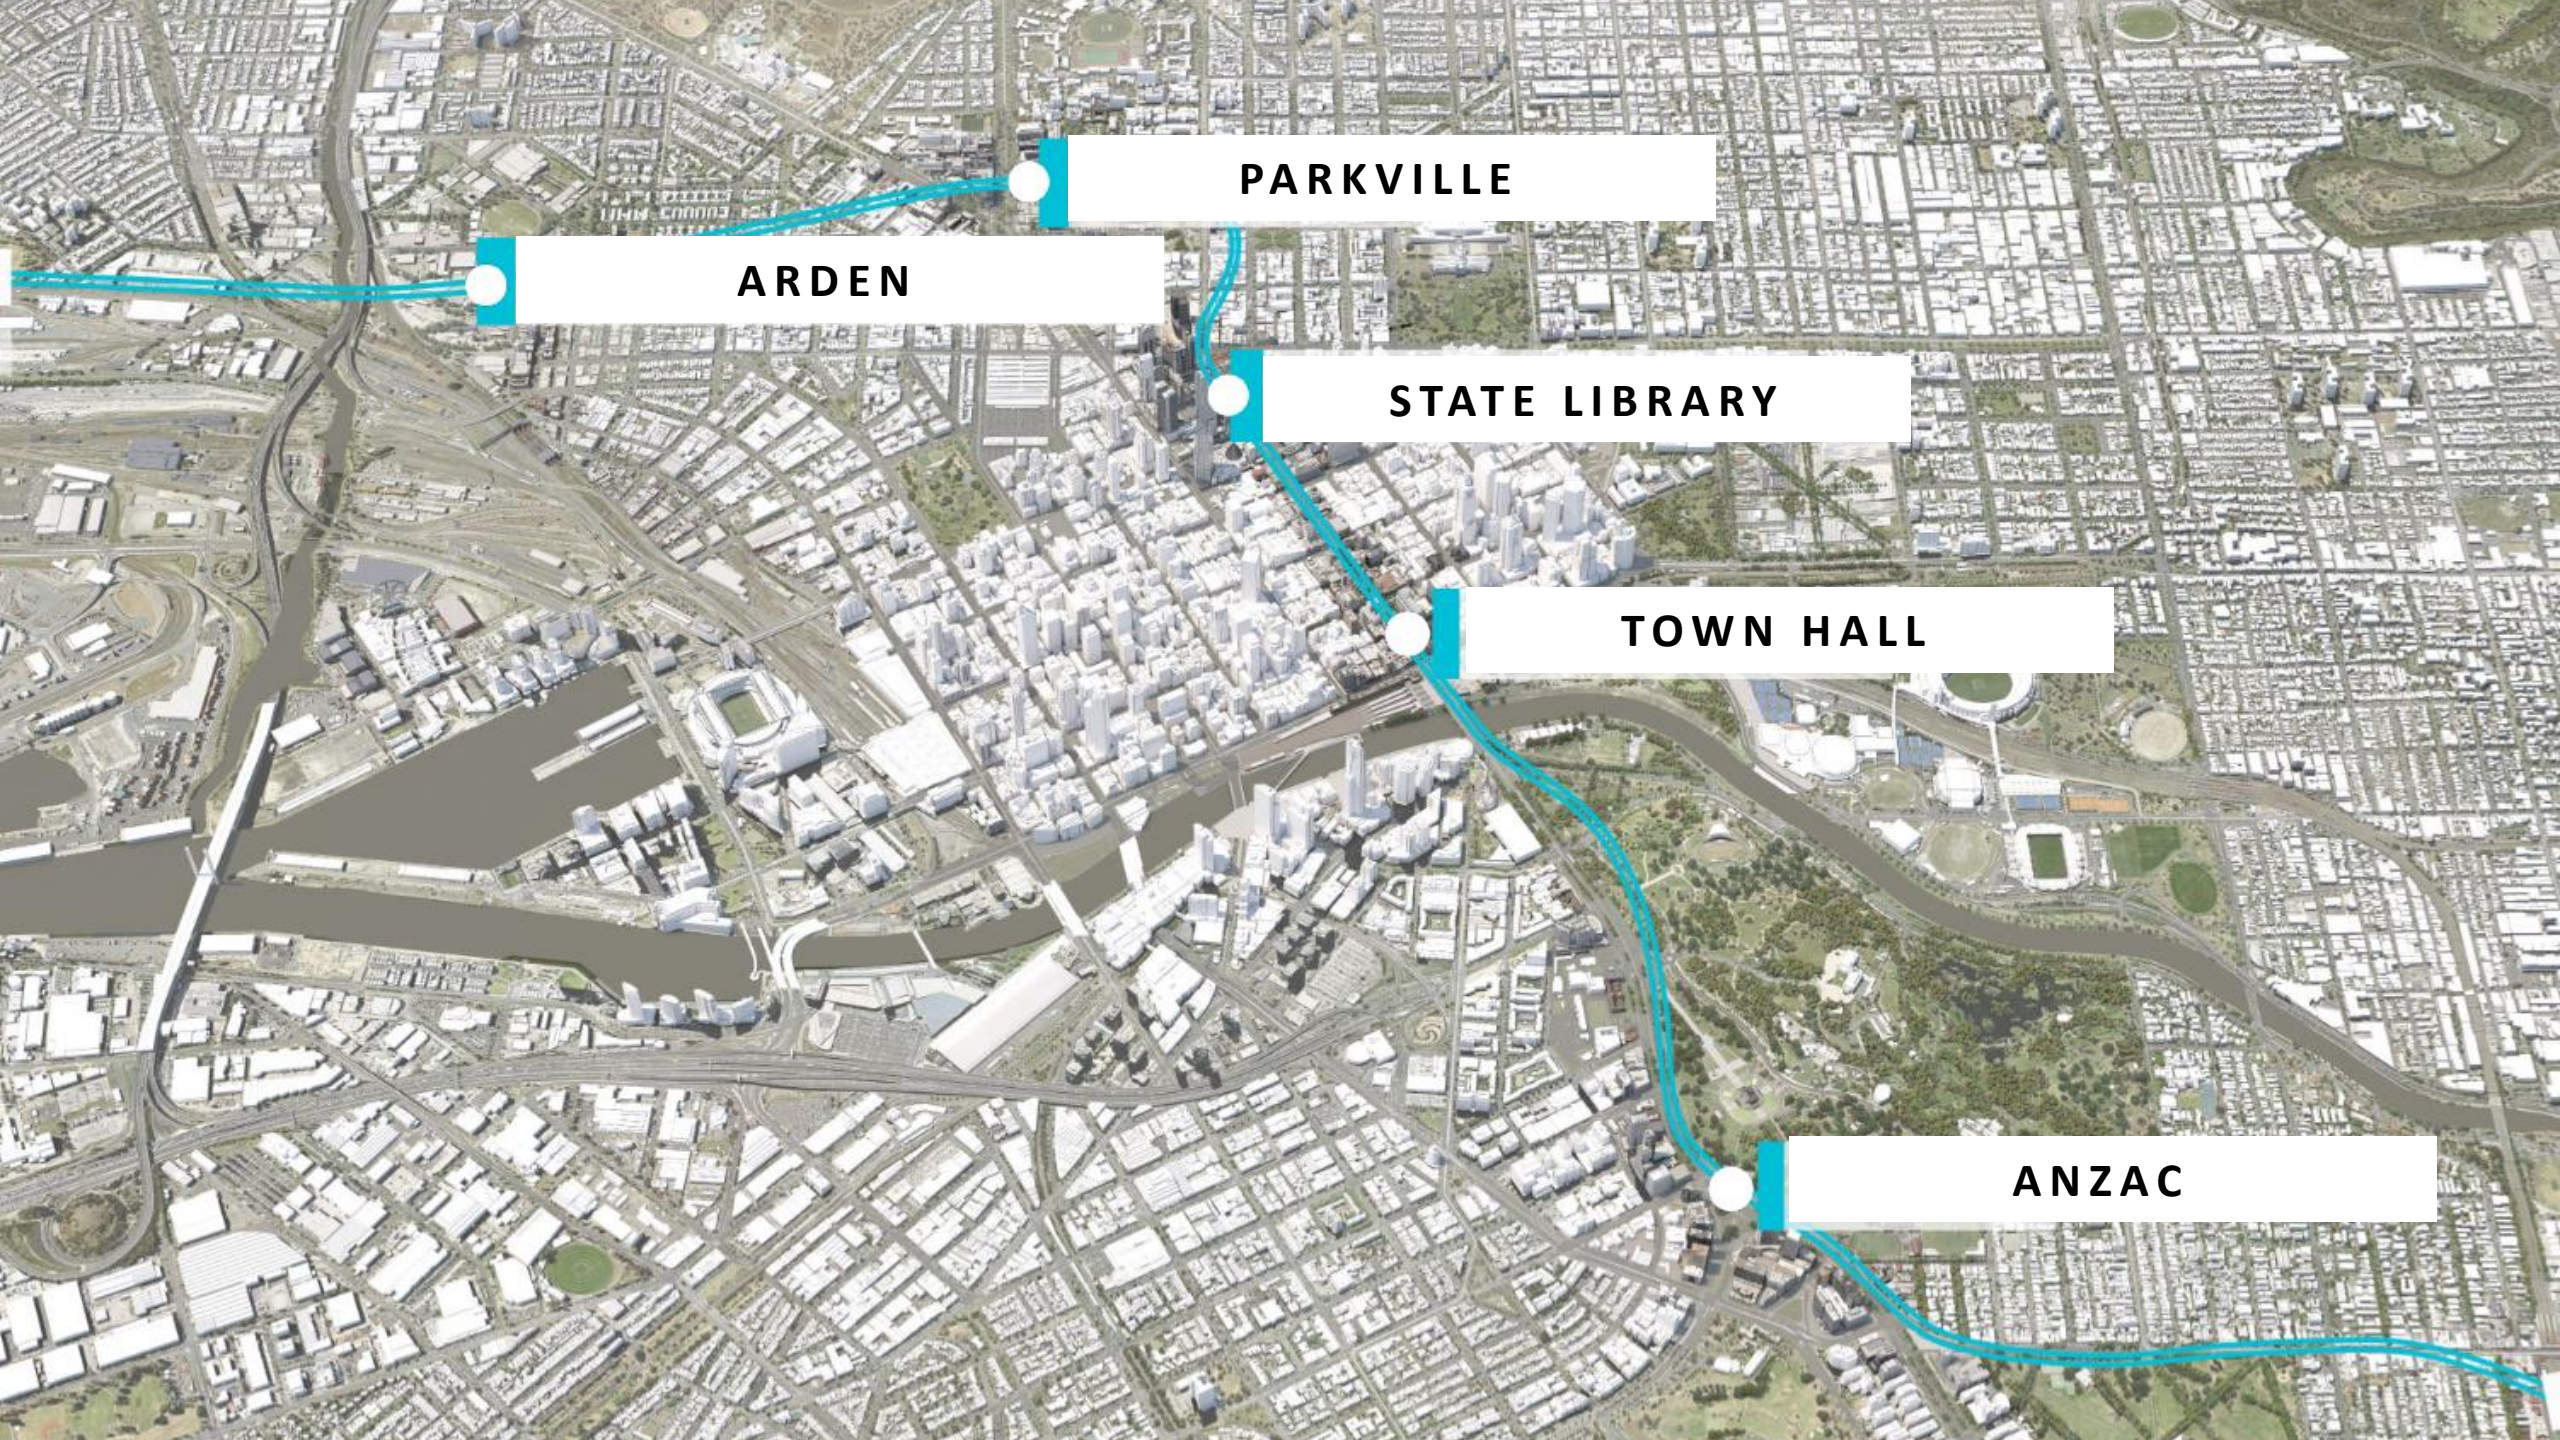

AGENDA

1. Project overview
2. State Library Station update
3. General feedback and items for future discussion

PROJECT OVERVIEW

PARKVILLE

ARDEN

STATE LIBRARY

TOWN HALL

ANZAC

TOWN HALL

In late May, a new pedestrian crossing opened on Flinders Street adjacent to Hosier Lane and the Federation Square atrium.

On Wednesday 3 June, the pedestrian crossing between Federation Square and St Pauls Cathedral closed, as did the St Kilda Road left turning traffic lane onto Flinders Street westbound.

These changes will be in place for approximately two years.

ARDEN

Works at Arden Station are fast transforming the station box into a station.

14-metre high columns that stretch from the base slab to the future station's roof are being constructed in the station Box.

PARKVILLE

Permanent structure works are ongoing within the 270 metre long station box at Grattan Street east.

Construction works to build the station entrance adjacent to the Peter MacCallum Cancer Centre on Grattan Street commenced in late May 2020, with site establishment works.

Grattan Street westbound lanes, between Flemington Road and Elizabeth Street/Royal Parade, will remain closed for three years.

Grattan Street East

Grattan Street West

ANZAC

We have reached another major milestone, with tunnel boring machines (TBM) Millie and Alice now both on their way to South Yarra.

Alice joins the yellow TBM Millie who got a head start on the new 1.7km tunnel in April.

STATE LIBRARY STATION UPDATE

Architectural concrete elements underway

168 lineal metres of tie beam constructed

Future Melbourne Central passenger connection

MELBOURNE CITY BATHS

36/50 steel columns installed

Reinforced concrete works complete

STATE LIBRARY

A'BECKETT AND FRANKLIN EAST

A'Beckett Street site

Tunnelling works

- 24/7

Franklin Street East site

Tunnelling works

- 24/7

The Franklin Street East site is continuing construction of the underground station platform, this involves delivery of steel and concrete to the site using trucks.
