

Works Notification

Landscaping and drainage installation works Willaton Street, St Albans

4 April to 10 June 2022

As part of the Sunbury Line Upgrade, we are delivering power upgrades that will allow bigger, more modern trains to run on the Sunbury Line. We wish to advise of ongoing and upcoming works to build a new electrical substation on Willaton Street, St Albans.

What we are doing

Landscaping activities

Ongoing to Friday 10 June 2022

- Using a small crane to complete the installation of the decorative screen around the substation site
- Installing pathways and native landscaping around the new substation building
- All native plants and grasses have been chosen to reflect the natural environment in the area
- Decorative rocks and a tree trunk will be included as part of the landscaping
- Concrete mixers will be on site at times to pour the concrete that will form the new pathway and gutter.

Sewerage pipe upgrade works

Monday 4 April to Friday 10 June 2022

- Upgrading sewerage pipes on Bent Street, between Willaton and Rhodes streets
- Underground boring works will take place from the new substation on Willaton Street and travel underneath Bent Street to the first roundabout
- Excavation works to create launch and retrieval shafts for the underground boring machinery will be required
- These works may not occur each day during this period.

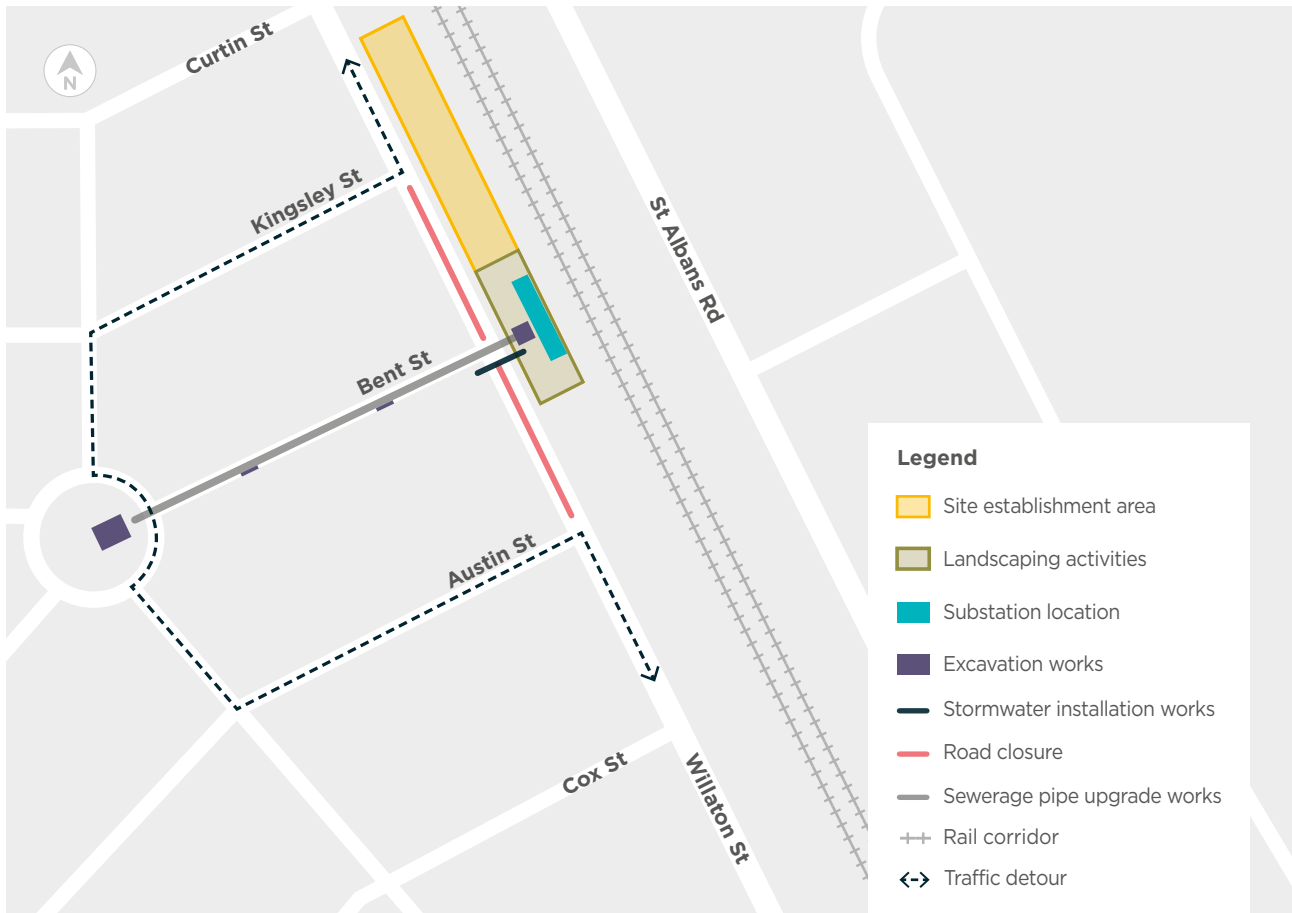

Stormwater installation works

Late April to mid-May 2022

- Installing new underground stormwater pipes underneath Willaton Street and connecting them to the existing stormwater system
- Temporarily closing Willaton Street during weekdays, between Austin and Kingsley streets
- Using excavators to dig underground and non-destructive digging (NDD) to expose underground services.

When

- 7am to 6pm, Monday to Friday
- 7am to 5pm, Saturdays
- 8am to 5pm, Sundays.

What to be aware of

- These works are expected to generate medium to high levels of noise and dust with low levels of vibration
- Minor traffic delays may be experienced, with traffic management in place during lane closures along Bent and Willaton streets
- Access for local traffic will be maintained at all times
- On-street parking along Bent Street will remain open. If you are required to move your vehicle at any point, you will be notified by a member of the project team
- Some works may reduce access to residential driveways and temporarily impact water supply along Bent Street. If this is required, you will be contacted prior to any access changes or impacts at your residence
- Some works will take place over the weekends. Construction activities that generate lower levels of noise will be undertaken during these times
- Ground conditions in the local area contain basalt rock which, if encountered, will need to be broken to facilitate these works.
