TEMPORARY CHANGES TO PARKING

Changes to parking while we work

The Victorian Government is removing 20 dangerous level crossings and building 13 new stations as part of upgrades on the Frankston line that will improve safety, reduce congestion and allow more trains to run more often.

We're removing the level crossings at Neerim Road and Glen Huntly Road by lowering the rail line into a trench. We will also build a brand-new Glenhuntly Station with better facilities and more services set to open in 2023 – one year ahead of schedule.

To safely carry out construction activities and to enable increased truck movement along the rail corridor, there will be times when we temporarily change the way you move around in Glen Huntly and Caulfield East.

These changes may include reduced or removal of on-street parking and some temporary carpark closures.

Where possible, alternative parking options will be made available. Detours will also be in place and some delays are expected, so drivers are encouraged to plan ahead and allow extra time.

We work hard to reduce impacts of our construction works and thank you for your ongoing patience.

TEMPORARY CHANGES TO PARKING

While level crossing removal works take place, there are car parking closures in, and around the Glenhuntly Station precinct **until late 2023**.

Date	Car park closures
Until late December	Station Place, Glen Huntly <ul style="list-style-type: none">On-street parking along a section of Station Place removedCar park at the corner of Watson Grove and Huntly Street is open
Until late June 2023	Dorothy Avenue, Glen Huntly <ul style="list-style-type: none">No on-street parking between Macgowan Avenue and Etna Street
Until late July 2023	Royal Avenue, Glen Huntly <ul style="list-style-type: none">Intermittent road closures along sections of Royal Avenue. On-street parking will be busier during this time.
Until late 2023	Glen Huntly Road station car park <ul style="list-style-type: none">Closed, including accessible parking - passengers requiring accessible parking are advised to use either Ormond or Carnegie stations Etna Street station car park <ul style="list-style-type: none">Closed and during this time there will be no pedestrian access through the car park, pedestrians should detour via Etna and James streets Royal Avenue station car park <ul style="list-style-type: none">Closed

Why do we temporarily remove parking?

At times, we need to temporarily remove parking to allow our teams to work safely.

This helps us:

- perform construction activities in a specific area
- allow access for construction equipment
- complete road works
- relocate services.

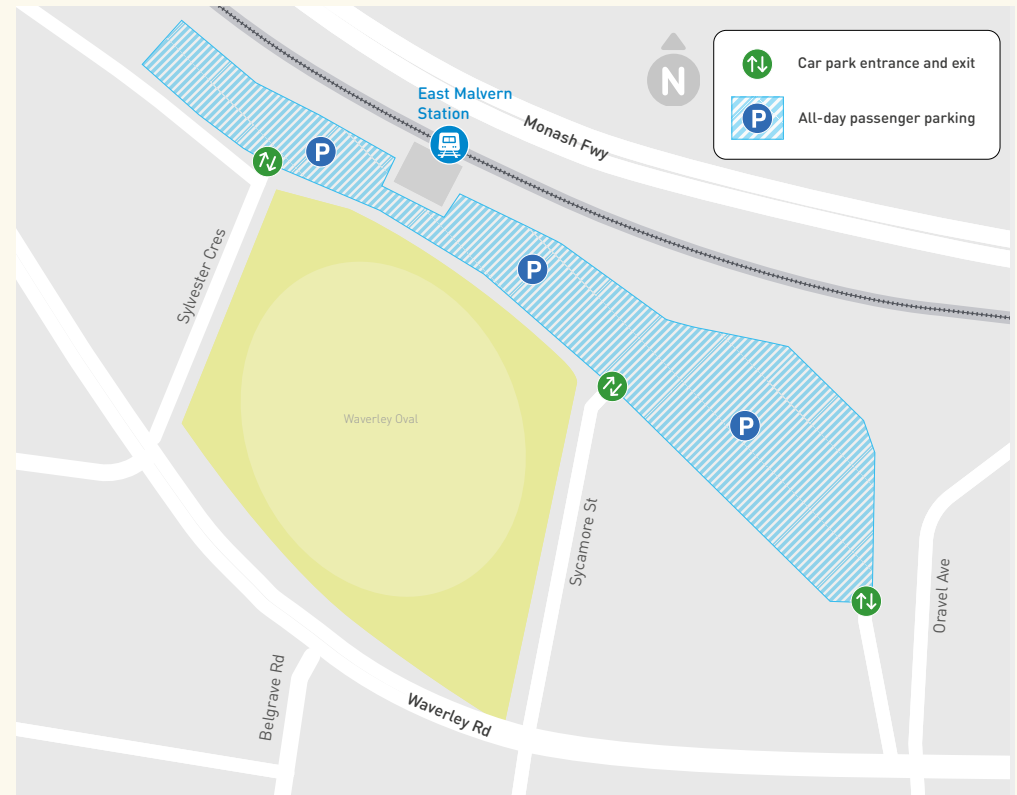

Traffic management will be in place to ensure the safety of road users and pedestrians when we make changes to parking.

Alternative parking

From Thursday 1 September until late 2023 alternative parking will be at East Malvern Station.

The car park is located off Sylvester Crescent in Malvern East. Passengers requiring accessible parking are advised to either use Ormond or Carnegie stations.

Please note that alternative passenger parking may change during the project and passengers will be advised ahead of time. Allow extra time to move around the area while we work. We thank you for your patience.

Project timeline

- ✓ **Late 2021**
 - Finalise project design
 - Ongoing site investigations
- ✓ **Early to mid 2022**
 - Site office establishment
 - Vegetation removal
 - Service and utility works continue
 - Station car park closures
- **Mid to late 2022**
 - Major construction begins
 - Piling works begin
- **2023**
 - Boom gates removed
- **2024**
 - Project completed

Timeline above is subject to change.
