

MELBOURNE METRO RAIL PROJECT ENVIRONMENT EFFECTS STATEMENT
INQUIRY AND ADVISORY COMMITTEE

MMRA TECHNICAL NOTE

TECHNICAL NOTE NUMBER: 071
DATE: 6 October 2016
PRECINCT: Eastern Portal
EES/MAP BOOK REFERENCE: EES Map Book Sheet 14 (Horizontal Alignment Plans)

SUBJECT: Trees in Osborne Street, South Yarra

REQUEST:

1. The IAC requested advice from MMRA on whether there is potential to retain trees along the eastern side of Osborne Street that are identified as impacted in the EES.

NOTE:

2. Due to the works associated with the TBM Retrieval Box and construction vehicle access bridge, there is limited potential to reduce the impact on trees on Osborne Street between Toorak Road and the south side of the vehicle access bridge.
3. There is some potential to reduce the impact on trees on Osborne Street south of the vehicle access bridge. The potential to minimise impact on trees in this area is reliant on contractor requirements for access to the vehicle access bridge, utility works and laydown areas for storage of materials.
4. MMRA will work closely with contractors to minimise tree loss in a manner consistent with the applicable EPRs.
