

# LEVEL CROSSING REMOVAL UPDATE

CAULFIELD TO DANDENONG  
CORRIGAN/HEATHERTON/  
CHANDLER  
AUGUST 2017

## Major milestones reached

Major works are underway to remove level crossings at Corrigan, Heatherton and Chandler roads and to rebuild Noble Park Station.

Construction works have ramped up significantly, with a number of major project milestones achieved. This brings us one step closer to removing three of Victoria's worst level crossings.

In mid July, Noble Park underwent significant transformation with the first beam placed over Corrigan Road. This is the first beam to be placed across

a road on the Caulfield to Dandenong Level Crossing Removal Project.

Over the past month we have made great progress.

Approximately 50% of horizontal beams and 96% of piers have been installed. Additionally, we have completed piling activities (ground strengthening), with over 600 piles in the ground — a major project milestone.

---

Noble Park is undergoing a one of the biggest transformations in its recent history, with the new elevated rail removing the existing barrier between the community and the lan Street and Douglas Street shopping precincts.

## Disruptions

We are working hard to minimise disruptions, with trains running the majority of the time. However, there will be some disruptions as we deliver this significant project.

### Rail disruptions

- **Buses will replace trains between Caulfield and Dandenong stations** from Saturday 2 September 12.30am to Sunday 3 September (last service).

### Road disruptions

- **At the level crossing on Heatherton Road there will be lane closures until November 2017.** Two-way traffic will be maintained.
- **Mons Parade – there will be intermittent closures on Mons Parade between Ian Street and Heatherton Road until early 2018.** Closures will be between 7.00am – 6.00pm daily. Please follow detour signs.

# Getting on with the job

By the end of August we anticipate to have reached more major milestones with 100% of piers installed.

Over the coming months we will continue to construct the new Noble Park Station with platform, canopy and concourse works to be undertaken.

## Supporting local traders

We are working hard to minimise the impacts of construction and making sure customers can access local shops and businesses at all times.

Our trader care team recently visited businesses in Noble Park to introduce an initiative called the

Small Business Mentoring Service. This confidential service provides traders with marketing advice, help with a business strategy, or ideas to address current challenges. The project is offering every trader impacted by the project works three free sessions with a friendly mentor.

If you have any questions, please contact us or visit the **Noble Park Information Hub**, located in the station carpark (Douglas Street).

Open hours: Tuesdays 9am-5pm, Wednesdays 3-7pm and every second Saturday 9am-12pm.

Pouring of the elevated deck, Noble Park Station.
