Impacts

As with all major infrastructure projects, surrounding communities may experience some impacts during construction.

The project will support businesses and residents to ensure people can continue to live, work, study and shop in their local community.

Please contact us on **1800 105 105** to discuss support available if you are impacted by our works.

How we will manage our works

We will be using equipment that generates elevated noise, dust and vibrations.

We will minimise impacts to the community by:

- Where possible, keeping Whitehorse Road open in both directions on Friday and Saturday nights
- Maintaining access to the 109 tram terminus from either the north or south side
- Using noise blankets on machinery and fencing where possible
- Turning off equipment when not in use
- Applying water during cutting and drilling if required
- Using water trucks and dust suppressants where required.

Traffic changes

Traffic changes are needed to complete these works. Vehicle and pedestrian access to homes and businesses will be maintained at all times with help from traffic controllers when required.
