

Community Liaison Group

North Group Meeting

21 May 2020

Roll Call

Introduction

Jim Williamson

Report from CLG community members

Actions from previous meetings

Open Actions – North Group

#	Action	Owner	Update	Status
LN6	WGTP to respond to concerns by members on the use of Moonee Ponds Creek active space and consideration of tree planting.	WGTP MTIA	WGTP landscape plans for Moonee Ponds Creek have been reviewed by the Victorian Planning Authority (VPA). VPA is satisfied that the design of public open space at this location aligns with the objectives of VPA's Moonee Ponds Creek Implementation Plan. In summary, significant effort has been placed on incorporating a recreational opportunity adjacent to the veloway and the Capital City Trail. This will add significant value to the community and aligns with the Moonee Ponds Creek future plan.	To be closed

Open Actions – Joint meetings

#	Action	Owner	Update	Status
AJ9	CPBJH to provide updated shared user path construction schedule to JS	CPBJH JV	John Stirk requested AJ9 to be tabled at the West CLG meeting in April JV have provided an updated program. WGTP has issued this to relevant CLG members	Closed
AJ10	WGTP MTIA to invite DoT to present at a CLG meeting in 2020	WGTP MTIA	WGTP MTIA have met with Department of Transport who agreed to present at an upcoming CLG meeting DOT have given a commitment to provide an update at the joint July CLG meeting.	Open

Local community - related information

Soil management

westgatetunnelproject.vic.gov.au/construction/soil-management

To build the West Gate Tunnel, approximately 1.5 million cubic meters of rock and soil will need to be managed.

Digging up this amount of soil to build the West Gate Tunnels will be a 24/7 operation at our Northern Portal site in Yarraville.

The project parties are working to find a long-term solution to safely manage the rock and soil created during tunnelling. This includes finding a permanent disposal site, and having a potential temporary back-up holding site to be used only when the permanent site can't be accessed.

Given the West Gate Tunnel Project is being built in former industrial areas, our extensive testing has found low levels of the group of chemicals known as PFAS will be found in some of the excavated soil during tunnelling.

To ensure it is managed safely for workers and the community, EPA Victoria and Worksafe Victoria requirements will be met at every step of the way.

Key information

West Gate Neighbourhood Fund

westgatetunnelproject.vic.gov.au/community/grants

Update on the fund due to Coronavirus (COVID-19)

Due to the announcement of the state of emergency as a result of the current global coronavirus (COVID-19) pandemic, we are revising the timing of our 2020 funding streams to ensure not-for-profits have the time and opportunity to participate fully.

Partnerships

We are thrilled that the inaugural round of the partnership program received many applications, which we are currently assessing.

We look forward to announcing partnership recipients in mid-2020.

Grants

We continue to plan for the grants funding stream, that will now open later in 2020, and are currently planning for information sessions and grant writing workshops that will help not-for-profits apply once the grants are open.

Key information
