ecologiq® Greener Infrastructure Conference 2022

Projects and Products Tour

ecologiq.vic.gov.au/conference-2022

Projects and Products Tour

The Projects and Products Tour is an interactive and thought-provoking fringe event of the ecologiQ Greener Infrastructure Conference, aimed at inspiring emerging infrastructure leaders.

ecologiQ is offering 100 delegates an exclusive opportunity to tour some of Victoria's flagship transport infrastructure projects.

See firsthand examples of world-class recycled products in action on some of Victoria's biggest and most complex projects.

Talk directly to specialists who manufacture recycled products, visit their recycling facilities, learn how the products are made and how they can be applied on projects to make a difference.

Don't miss this opportunity to learn more about how recycled and sustainable solutions can be easily integrated and elevate infrastructure projects.

Choose Between Two Itineraries

The Projects and Product Tour will take place on the first day of the conference, Tuesday 6 September 2022.

The Projects and Products Tour will be split in two routes:

1. North west
2. South east

Delegates can indicate a route preference. ecologiQ will try to accommodate all preferences, subject to availability.
