

Works Notification

Site establishment and out of hours works Sunshine

12 September to 19 October 2022

As part of the Sunbury Line Upgrade, we are delivering power upgrades that will enable bigger, more modern trains to run on the Sunbury Line. To support power upgrades we will be undertaking site establishment and 24-hour works while we commission the Sunshine Station substation.

What we are doing

Site establishment works

- Establishing two small project site compounds in the Sun Crescent car park at Sunshine Station and near the rail corridor in Chaplin Reserve, Sunshine
- Installing temporary fencing, worker amenities and a laydown area for the storage of construction materials
- 40 car spaces in the Sun Crescent car park at Sunshine Station will be temporarily closed during this time. Alternative all-day and accessible parking will remain open

Out of hours works

- 24-hour construction works in the rail corridor and at the Sunshine substation
- Connecting cables and electrical equipment to supply power to the Sunbury Line
- Removing old cables and overhead powerlines in the rail corridor that are no longer required
- Excavating trench routes and installing new underground cables between the substation and rail corridor
- A winch will be used at times to help pull underground cables through conduits to connect them between the substation and rail corridor
- Non-destructive digging (NDD) to investigate ground conditions and confirm the area is free of underground services

When

Site establishment works:

- Monday 12 September to
Wednesday 19 October 2022
- 7am to 6pm, Monday to Friday
- 7am to 5pm, Saturdays

Out of hours works

- From 6pm Friday 30 September to
6am Monday 17 October

Travel changes

To ensure the 24-hour and out of hours works can take place safely, buses will replace trains between North Melbourne and Watergardens stations:

- From 8.15pm Friday 30 September to
last service Sunday 2 October
- From 8.15pm Friday 14 October to
last service Sunday 16 October

For further details and to plan your journey please visit ptv.vic.gov.au or call **1800 800 007**.

What to be aware of

- These works are expected to generate medium to high levels of noise and dust
- For the safety of rail users and our workers, some of these activities can only be performed out of hours when trains are not running
- Generator powered lighting towers may be required at night for safety. Where possible, lighting will be directed away from residential properties
- Ground conditions in the local area contain basalt rock which, if encountered, will need to be broken to facilitate these works
- There will be an increase in construction vehicles accessing Sunshine Station and Chaplin Reserve. Traffic controllers will be present at times to assist with vehicle, pedestrian and cyclist movements around the area.
