BALLAN ROAD INTERSECTION UPGRADE

MARCH 2024

Planning continues for the upgrade of the Ballan Road intersection at Greens and McGrath roads in Wyndham Vale.

Planning work has included traffic modelling, social studies and environmental investigations. This helped us to understand environmental and social impacts, develop design options, and confirm scope and costs of different options.

In our project planning and development, we considered options to upgrade the intersection to deliver a more efficient transport network and improve safety.

The upgrade will:

- remove the existing roundabout at McGrath, Ballan and Greens roads and replace it with traffic lights
- add traffic lights at the Ballan Road and McGrath Road (south) intersection
- improve walking and cycling connectivity at the intersection, by adding new paths.

The intersection upgrade aims to:

-  Cater for the growing community and increased vehicle movements
-  Reduce travel times and improve reliability
-  Make walking and cycling a more attractive option
-  Reduce congestion
-  Improve safety

Project status

We've finished our development work and a business case has now been completed.

The business case examined the upgrade in detail to help select the design that will be constructed, determine the cost, and identify the best delivery approach.

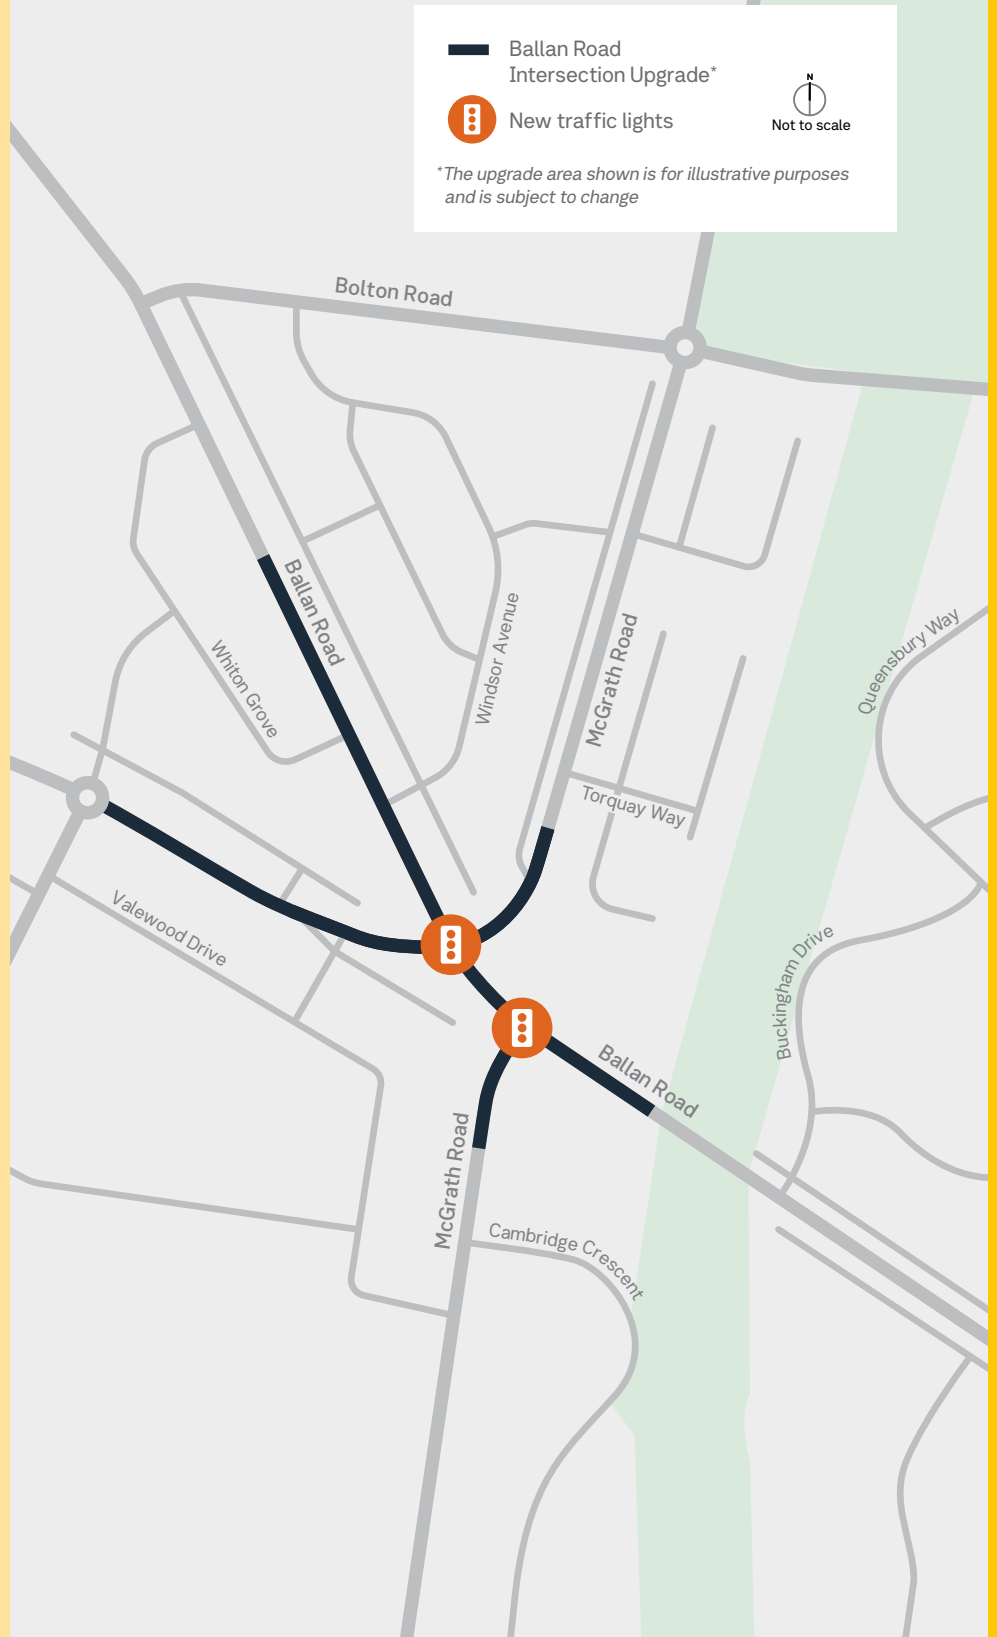

Next steps

Planning work is continuing as the upgrade moves towards construction.

Construction timelines will be known once our planning has progressed further.

Project timeline

- ✓ **October 2022**
Intersection upgrade announced by the Victorian Government
- ✓ **Early 2023**
Planning commenced
- ✓ **Late March 2023**
Technical investigations commenced
- ✓ **March/April 2023**
Community and business engagement
- ✓ **March 2024**
Business case complete
