

Works notice

Paving works

Swanston Street, corner of Flinders Lane

Tuesday 20 August to Friday 30 August 2024

As part of works to upgrade Swanston Street and build an entrance to the new Town Hall Station, paving removal and replacement works are required on the Swanston Street pedestrian footpath outside the Nicholas Building.

When we'll be working

- From **Tuesday 20 to Friday 30 August 2024**
- These works will take place from **8pm to 6am Monday to Friday**.

The timing of work may change depending on weather.

What we'll be doing

- Works will include removing existing pavers, placing crushed rock and concrete and relaying new pavers
- Works will include the use of a small excavator and hand tools
- These works will be staged in areas to minimise impacts on businesses and footpaths. Work areas will be fenced off using temporary fencing and water barriers while works are being undertaken.

What to be aware of

- Small works areas will be fenced off during the day, in preparation for each night shift
- Pedestrian access to retail shops will be maintained
- These works will generate some periods of high noise and medium vibration.

We appreciate your patience while we undertake these works. If you have any questions or concerns, please contact the Metro Tunnel Project information line on **1800 105 105**.
