A-55-1: MTPO to continue monitoring the implemented design

- Signal Optimisation Trial commenced 17 November 2025 with agreed changes to signal timing. Yarra Trams and MTPO monitored impacts on pedestrians, bikes, trams and traffic from all approaches to the intersection
 - On 29 January 2026 DTP decided to keep the changes and make them ongoing
 - DTP will continue to monitor the intersection and network and adjust its performance as required.
- Of note the trial found pedestrians crossing Park St, Domain Rd and to the Central Island Platform at the NW crossing experience **12-15** seconds less 'average delay'

A-60-1: CYP to provide an update on the top-dressing of the ground surrounding the South African Soldiers' Memorial
