## Moonee Ponds Creek – Upcoming Works

Works are continuing around Moonee Ponds Creek (MPC) to allow for construction of two new walking and cycling paths as part of the West Gate Tunnel Project. The first crossing is located near the Dynon Road intersection of the creek and the second crossing just north of the Citylink offramp. The walking and cycling path will give pedestrians and cyclists a safe, express route to and from the city.

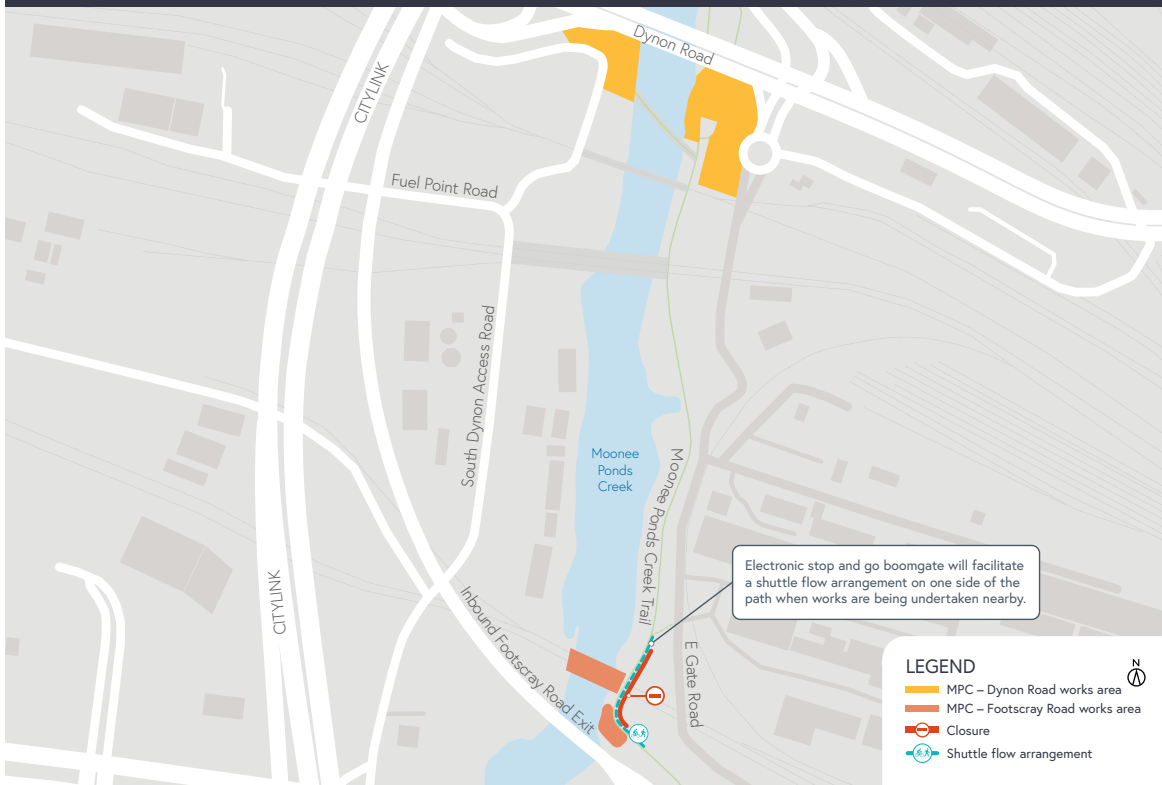

### What to expect and when

From July 2022, vegetation removal, concrete pours, crane installation, temporary walking and cycling path diversions and piling works will be occurring intermittently until Monday 5 December 2022.
