

# Works Notice

## Shared path closure Anderson Road

**Wednesday 12 April 2023 to 2025**

Melbourne Airport Rail is a transformational project connecting Melbourne Airport to Victoria's regional and metropolitan train network for the first time.

We're building two new rail bridges and a new shared path over Anderson Road.

We're undertaking works in this area in a staged manner. This notice covers the second stage and the closure of the Anderson Road pedestrian and cycling path.

### What we are doing

- We're closing the pedestrian and cycling path over Anderson Road
- Removing light poles from the site area and the southern side of the shared use path
- Non-destructive digging (NDD) to locate underground services in the area
- Building a driveway for vehicles to access the site
- Building a large concrete slab to protect underground services. This slab will ensure the area is safe whilst heavy machinery is used to demolish and rebuild the bridges
- The concrete slab will be poured at the end of April and will continue to set until June in order to reach full strength
- Removing trees and vegetation on both sides of Anderson Road. Where possible, we will make every effort to protect native vegetation
- Works include the use of excavators, a scissor lift, elevated work platform, wood chipper, NDD truck, concrete truck, workers with hand tools and other construction machinery.

### What to be aware of

- We expect low to medium levels of noise
- The pedestrian and cycling path over Anderson Road will be closed from Wednesday 12 April until 2025. A southern and northern cyclist and pedestrian detour will be in place (see map overleaf)
- There will be an increase in vehicles using Talmage Street and King Edward Avenue to enter and exit the construction site.

### When

- 7am to 6pm, Mondays to Fridays
- 7am to 1pm, Saturdays.

### Keep informed
