

Upcoming works

Bulleen, Balwyn North, Doncaster, Mont Albert North

August / September 2026

Construction snapshot

In July, we completed our second major lift over the Eastern Freeway in Bulleen. We're now working towards our third major lift in mid August. These structures will form part of the ramps connecting the Eastern Freeway and the new North East Link tunnels.

We'll continue upgrades to Thompsons Road over the coming months, bringing

the area between Bulleen Road and the freeway entry ramp near completion.

There will be ramp closures in Bulleen and Doncaster as we work to move these ramps into their final alignments.

In Doncaster, we're continuing to install beams for the Doncaster Road bridge over the freeway and build up the multi-deck car park at Doncaster Park & Ride.

When we are working

- Day works**
7am to 6pm from Monday to Friday and 7am to 3pm, Saturdays and Sundays
- Night works**
6pm to 7am from Monday to Saturday and 3pm to 7am, Saturdays and Sundays
- Day/night works**
At times during day and night hours

- 24-hour works**
At times. Notification provided before works.

We use water carts and noise mitigation measures wherever possible to reduce dust and noise during work.

We'll contact impacted residents regarding specific times for construction activities and to offer support.

Upcoming disruptions

Doncaster Road Ringwood-bound entry ramp closed from 9pm, Tuesday 4 August to mid-October.

Eastern Freeway closed between Bulleen and Springvale roads from 10pm, Friday 14 August to 5am, Monday 17 August.

Thompsons Road closed between Bulleen Road and the Thompsons Road Ringwood-bound entry ramp from 10pm, Friday 14 August to 5am, Monday 14 September.

Bulleen Road citybound entry ramp closed from 9pm, Tuesday 18 August to 5am, Monday 14 September.

Zone 1: Burke to Bulleen roads and Bulleen Road interchange

Ongoing and existing works

- Earthworks
- Piling / foundation work
- Creek bypass pumping
- Site investigations
- Concrete foundation
- Bridge beam installation
- Noise wall construction
- Roadworks
- Oversize deliveries
- Utility works
- Drainage works
- Traffic signal works
- Lighting and on-road technology
- Day works
- Night works
- Day / night works

New works starting August / September 2026

Where	Activity	What to expect
1 Bulleen Road between Carey Bulleen Sports Complex and Leonis Avenue	- Installing concrete barriers on elevated ramps. - Earthworks for busway, underpass, ramp and Koonung Creek works. - Installing retaining wall panels. - Delivery and installation of beams. - Bridge strengthening and widening works on Bulleen Road bridge, including barrier installation and concrete and steel fixing works.	- Overnight lane and road closures - Pedestrian and shared path detours - Medium to low levels of noise, dust and vibration - Use of directional lighting - Delivery of heavy machinery and vehicles
2 Thompsons Road	- Cutting and removal of steel sheets. - Earthworks, drainage, steel fixing and concrete works for Thompsons Road realignment works. - Asphalting, traffic signal works, line marking, vegetation removal and removal of traffic islands.	- Overnight lane and ramp closures - Medium to low night time levels of noise, dust and vibration - Traffic and lane configuration changes - Use of directional lighting
3 Bulleen Road citybound entry and exit ramps	- Piling works to build foundations for shared path underpass. - Earthworks, steel reinforcement and concrete pours to build shared path underpass and permanent traffic barriers. - Noise wall removal. - Installing cabling for new on-road technology. - Traffic signal and drainage works near citybound entry ramp. - Installing beams and traffic barriers.	- Day and night closure of the citybound entry and exit ramps - Medium to low night time levels of noise, dust and vibration - Traffic controllers and signage - Increase in heavy machinery and vehicles accessing site on Highview Road
4 Between Burke and Bulleen roads	- Earthworks, landscaping and installing drainage along freeway. - Installing freeway lighting and cabling for new on-road technology. - Building retaining walls. - Installing noise wall panels along the freeway citybound. - Piling, steel and concrete works to build overhead structures and permanent barriers. - Freeway investigations, asphalting, barrier realignment and line marking.	- Overnight lane and ramp closures - Traffic and shared path changes between Musca Reserve and Columba Street - Medium to low levels of noise, dust and vibration - Use of directional lighting - Heavy machinery and vehicles - Overnight steel deliveries

Zone 2: Bulleen to Doncaster roads and Koonung Creek Reserve

Ongoing and existing works

New works starting August / September 2026

Where	Activity	What to expect
1 Between Bulleen and Doncaster roads, Koonung Creek Reserve	- Building of ramp at Bulleen Park & Ride for connection to busway. - Piling for noise wall foundations near Manningham Park Reserve. - Piling for retaining wall foundations at Estelle Street and Park Avenue. - Landscaping and installing noise wall panels along freeway citybound. - Earthworks and installing panels near Park Avenue. - Finishing works for walking and cycling bridge at Estelle Street. - Building temporary support towers in preparation for beam lifts. - Earthworks, drainage and building permanent barriers in the centre median. - Piling, steel and concrete works to build foundations for overhead structures and permanent barriers. - Sewer and watermain relocation works along Estelle Street. - Earthworks and installing panels for retaining walls on freeway near Bulleen Road and Estelle Street. - Installing freeway lighting. - Site and freeway investigations, asphaltting, barrier realignment and line marking. - Sewer protection works near Estelle Street and Willow Bend.	- Overnight freeway, lane and ramp closures - Partial closure of Estelle Street, Kampman Street and Park Avenue, with detours in place - Medium to low levels of noise, dust and vibration - Use of directional lighting 24/7 operation of pump systems at Willow Bend and Estelle Street - Access and use of Koonung Creek Reserve worksite day and night - Changes to shared paths on Estelle Street with detours in place - Increase in overnight and weekend activities - Overnight steel deliveries
2 Doncaster Road interchange	- Earthworks and concrete pours. - Building concrete abutments in centre median and worksite near Doncaster Road. - Building retaining walls on the entry and exit ramps. - Installing drainage, utility works and new on-road smart technology on Doncaster Road.	- Overnight lane and ramp closures - Pedestrian and shared path detours - Medium to low levels of noise, dust and vibration - Use of directional lighting - Heavy machinery and vehicles - Traffic controllers and signage

Zone 3: Doncaster to Tram roads and Valda Wetlands

Ongoing and existing works

- Earthworks
- Piling / foundation work
- Noise wall construction
- Concrete foundation
- Roadworks
- Oversize deliveries
- Utility works
- Drainage works
- Creek bypass pumping
- Lighting and on-road technology
- Day works
- Night works
- Day / night works
- 24-hour works

New works starting August / September 2026

Where	Activity	What to expect
1 Between Doncaster and Elgar roads, Doncaster Park & Ride	- Steel reinforcement and concrete pours at Doncaster Park & Ride. - Piling and installation of retaining and noise walls. - Installing water pipes, drainage and underground supports. - Building access roads within worksite. - Earthworks, steel fixing, concreting for noise walls. - Asphalt removal and installation for new freeway lanes. - Sewer installation works near Doncaster Road interchange. - Concrete and steel reinforcement works to build new traffic barriers. - Steel reinforcement installation, concrete pours and earthworks.	- Lane and ramp closures - Medium levels of noise, dust and vibration - Heavy vehicles and machinery accessing worksite via Wilsons Road, Stanton Street and Massey Street - Traffic controllers and signage - Day and night access to Doncaster Park & Ride worksite - Overnight deliveries via freeway - Temporary closure of Doncaster Road Ringwood-bound entry ramp
2 Valda Wetlands	- Concrete, steel works and piling for retaining and noise walls and concrete structures. - Earthworks and installing traffic barriers, drainage, and cabling for new on-road technology. - Sewer realignment and connection works.	- Overnight freeway, lane and ramp closures - Pedestrian and shared path detours - Medium to low levels of noise, dust and vibration - Heavy vehicles and machinery accessing worksite via Clifton and Sweeny streets - Overnight deliveries via freeway - New Eastern Freeway lanes
3 Between Elgar and Tram roads	- Earthworks, creek works and landscaping. - Installing concrete structures, underground supports, piling, steel works and earthworks. - Building retaining and noise walls. - Asphalting and pavement works to build new freeway lanes. - Installing cabling for new on-road technology.	- Overnight and weekend freeway, lane and ramp closures - Medium to high levels of noise, dust and vibration - New Eastern Freeway lanes
