Hyde Street, Douglas Parade and Simcock Avenue update

The West Gate Tunnel Project is continuing major construction activities on Hyde Street in Spotswood.

Works on Simcock Avenue and Hyde Street/Douglas Parade will be ongoing from **July 2023 to September 2023**.

Works include:

- Rebuilding the existing intersection at Hyde Street/Douglas Parade and Simcock Avenue
- Installing traffic signals at this intersection
- Installing drainage
- Construction of the new Hyde Street outbound entry ramp.

We will also continue less impactful works to install freeway technology systems, and upgrade the roads and intersection.

Construction activities will take place 24/7 and require road and lane closures. Traffic impact details will be confirmed in the West Gate Tunnel Project's weekly traffic email alert.

When driving through these areas, please follow traffic signage and check traffic media reports.

Please note, dates and times for this work may be subject to approvals, permits, site conditions and weather.

Subscribe to weekly traffic updates

If you would like to sign up to receive weekly traffic alert emails, please email us on info@wgta.vic.gov.au or call **1800 105 105**. Alternatively, for the latest updates, dates of closures and detour route information, visit bigbuild.vic.gov.au/disruptions.

Hyde Street/Douglas Parade construction works

Ongoing

In May, we removed temporary traffic signals and reopened Douglas Parade to two-way traffic. Major construction works on Hyde Street will be completed by end of July 2023

From early July until September, we'll shift traffic on Hyde Street to the opposite side of the road to continue these works. Traffic will continue to flow in both directions.

When walking and cycling path works are undertaken minor diversions will be in place.

Simcock Avenue/Douglas Parade

Reopening late July 2023

Over the last few months, we've built new traffic islands, new pavement and started to install permanent traffic signals at the intersection.

This upgraded intersection is expected to be open to traffic by late July with the new traffic signals activated upon the completion of the intersection upgrade.

The upgraded intersection will allow safer and better access to Simcock Avenue, particularly for vehicles accessing the future outbound ramp between Simcock Avenue and the freeway.

Simcock Avenue closure between Booker Street and Hall Street

End-July – September 2023

There will be a 24/7 closure of Simcock Avenue between Booker Street and Hall Street. The closure is part of the Hyde Street ramp construction. While we install drainage, complete pavement works, line markings, kerb works and lighting.

Local businesses in the area will be notified of the closure and we will work with businesses directly impacted to ensure minimal disruptions to access.

What you need to know

	Impact	Date
	24/7 construction activity – nighttime lighting, truck movements in the area and increased construction activity at our sites.	Ongoing
	Road closure:

	<p>Lane closures and ongoing traffic management set-ups:</p> <ul style="list-style-type: none"> • Hyde Street/Douglas Parade under West Gate Bridge <p>Additional overnight closures of Hyde Street/Douglas Parade to be advised via weekly traffic email.</p>	Ongoing

Support local businesses

Local businesses in the area remain open and operating during these works and we encourage the community and our workers to support these businesses.
