

# Construction update

## Parkville Precinct

April - May 2024

Major construction of the Metro Tunnel's Parkville Station is nearing completion. This update provides an outline of current and upcoming works in your area throughout April and May 2024.

### Works snapshot: April - May

Construction is continuing within the Parkville Precinct during April and May 2024 and will include:

- Fit out, testing and commissioning of the station, including the station entrances, chiller plant and the tunnel ventilation shafts
- Residual reinstatement and public realm works, including landscaping

- Demobilisation of Grattan Street east site.

Some works outlined in this construction update extend beyond May 2024 to provide a longer-term lookahead.

Further information on these works can be found overleaf or at [metrotunnel.vic.gov.au](https://metrotunnel.vic.gov.au)

### Business support

While the new Parkville Station will be a significant boost for the local area, construction activities can impact local businesses.

In response to this, our Business Support Team assists businesses through the disruption and any permanent changes that will take place.

Please see the promotion in this notification for **Samut**, located at **Ground Floor, 46 Little La Trobe Street, Melbourne.**

We look forward to promoting more local businesses as the project progresses.

As the main construction works for the Parkville Station precinct have now been completed, the project will send specific notifications ahead of the final works to be undertaken in 2024 instead of the bimonthly Construction Update notification. This reflects the decrease in construction activity as we near the completion of the project.

This will also reduce the production and use of paper.

For further information on the project or to receive Metro Tunnel project news and works notices by email, visit [metrotunnel.vic.gov.au/](https://metrotunnel.vic.gov.au/) **subscribe** or contact the project information line on **1800 105 105**, 24 hours a day, 7 days a week.

## Upcoming works in your area

### Station testing, commissioning and fit out works

#### Parkville Station site

24 hours

#### Ongoing until 2025

- Testing and commissioning works are continuing throughout 2024 at the station entrances, ancillary buildings, tunnel ventilation shafts, chiller plant and within the station box
- Fit out and façade works are being completed on station structures from within the existing site area. This includes station entrances adjacent to the Royal Melbourne Hospital, Peter MacCallum Cancer Centre, on Royal Parade and Grattan Street, and within the station box
- Removal of temporary structures from site. This includes removal of concrete using excavators, saw cutting and hammering. These works may produce intermittent periods of medium to loud noise
- Removal of site fencing and hoarding. Temporary fencing will remain in place around a reduced site area at Grattan Street east and west, including station entrances, ancillary buildings, tunnel ventilation shafts, chiller plant, lifts and skylights
- Further advice on upcoming traffic changes, including the reopening of Grattan Street, will be provided when available
- Trucks will continue to complete deliveries intermittently via the Barry Street entrance throughout 2024.

### Reinstatement and public realm works

#### Grattan Street east and west sites

Out of hours

#### Ongoing until April

- Residual reinstatement and public realm works will be completed at the Grattan Street east and west sites. This includes minor remediation works, line marking, signage installation and landscaping
- Small work areas will be established using bollards and traffic control will be utilised as required.

### Train testing and commissioning

#### Parkville Station site

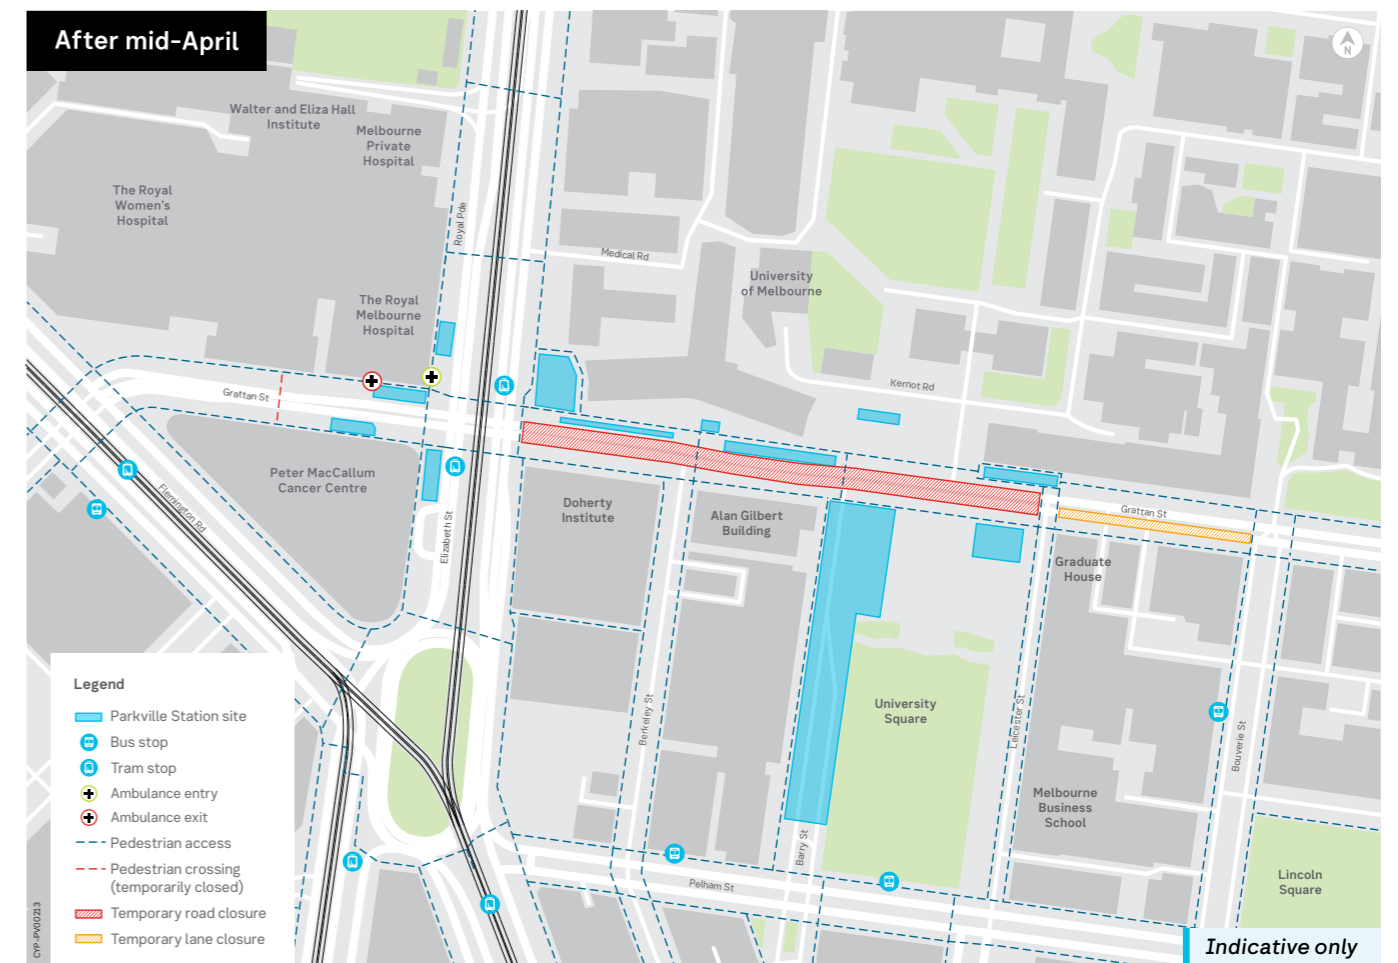

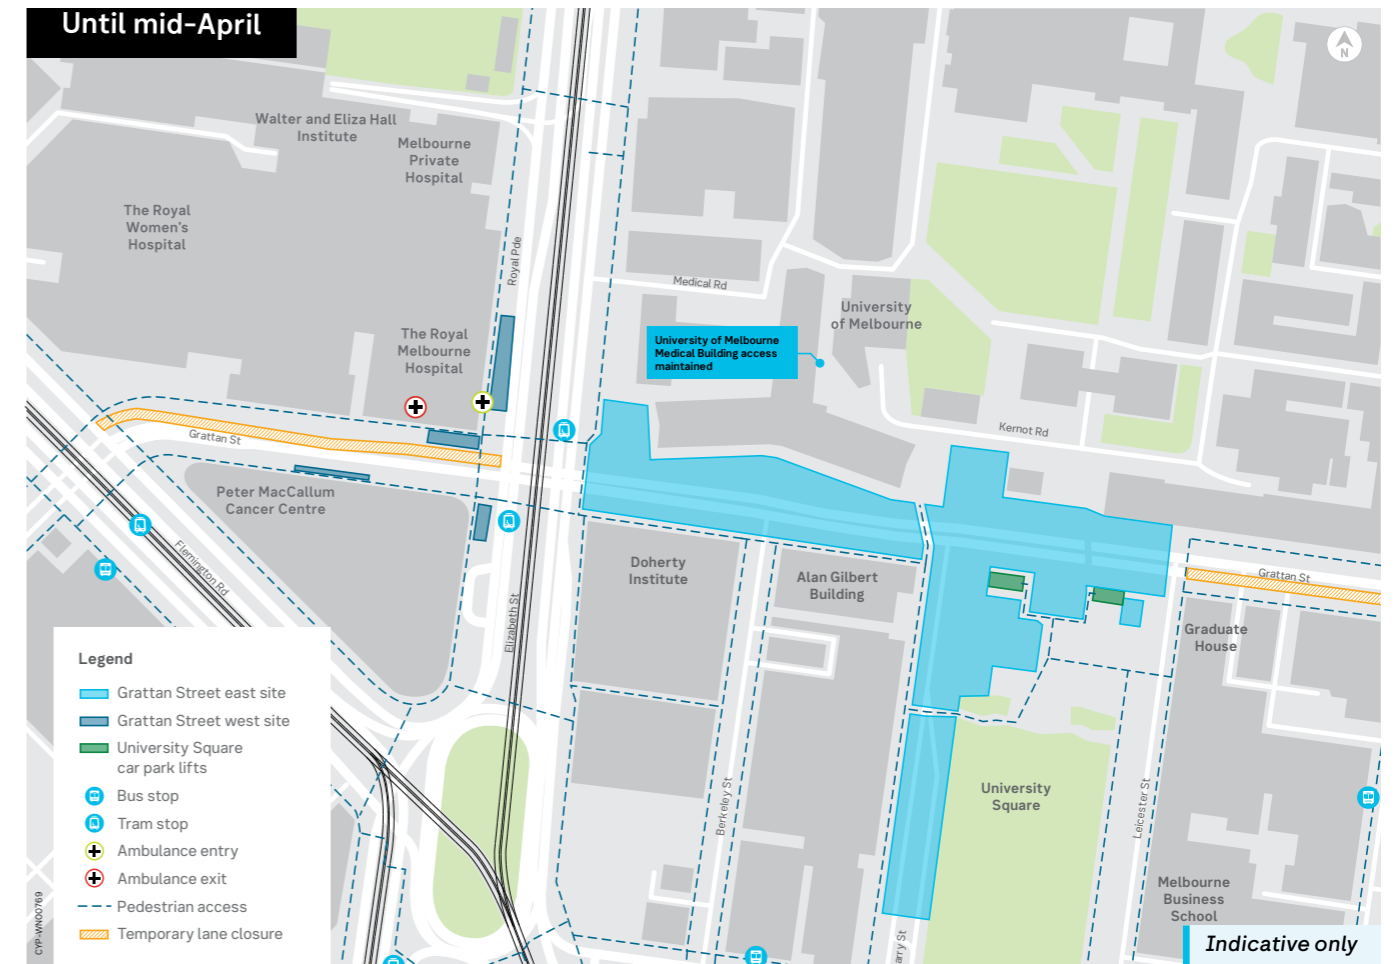

24 hours

#### Ongoing until 2025

- Ongoing testing and commissioning of train and tunnel systems
- Work inside the tunnel will continue 24/7.
