How we will manage our works

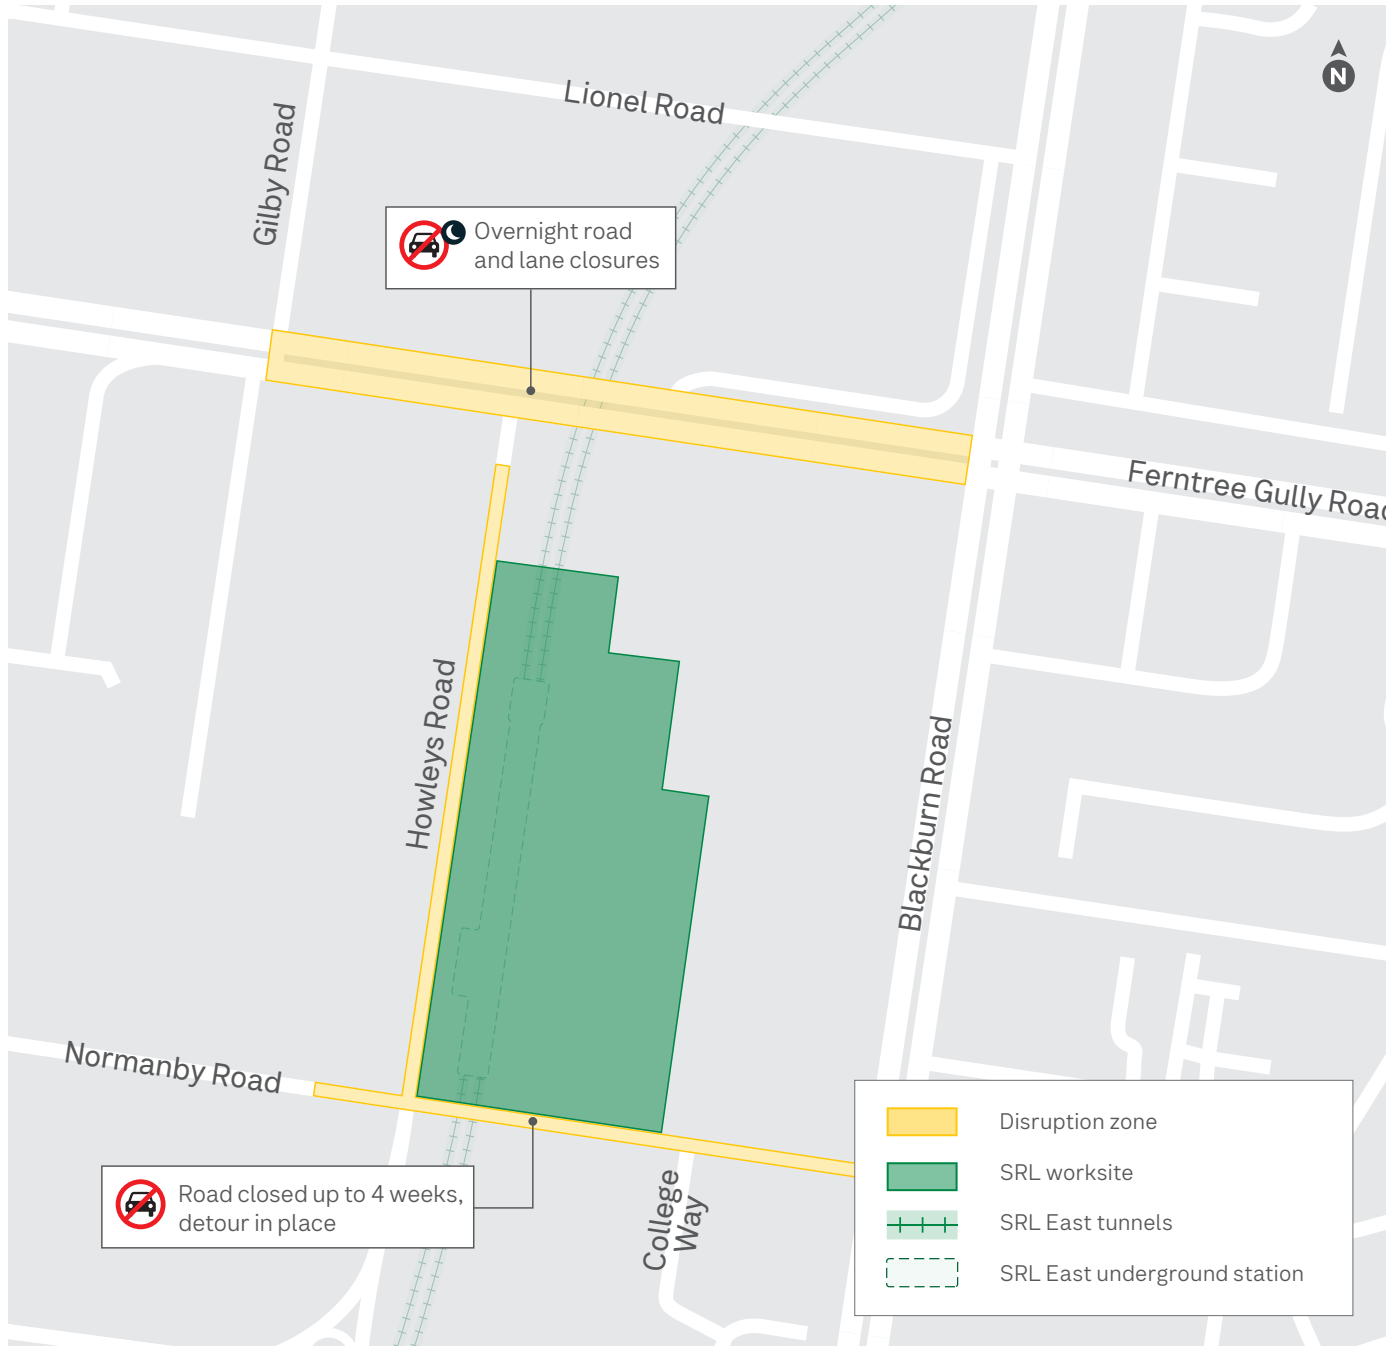

We will minimise impacts to the community by:

- Maintaining access to businesses during businesses hours, with help from traffic controllers where required
- Staging works along Howleys Road and Normanby Road to minimise traffic disruption
- Installing road safety and detour signage
- Notifying bus stop disruptions at the impacted stops ahead of time
- Transporting materials from site in covered trucks to minimise dust
- Positioning equipment as far as possible from businesses and residents and turning it off when not in use
- Safely removing hazardous materials in accordance with regulations
- Monitoring noise, dust and vibration levels.

Thank you for your patience and cooperation as we progress the delivery of SRL East at Monash.

Holiday shutdown

There will be no Suburban Rail Loop works during the holiday period from Saturday 20 December 2025 to Monday 12 January 2026 inclusive.

Additional traffic changes will be in place around the Notting Hill area as we complete utility relocation works in the area. If there are disruptions to your utility services, you will be notified by your provider directly.

Impacts

As with all major infrastructure projects, surrounding communities may experience some impacts during construction. The Project supports businesses and residents to continue to live, work, study and shop in their community.
