

## Works Notification

### Power Upgrades

#### Albion to Calder Park

**14 April - 30 June 2021**

To increase capacity on the Sunbury Line, we are delivering platform extensions, power upgrades and new stabling as part of the Sunbury Line Upgrade. These upgrades will allow bigger, more modern trains to operate on the Sunbury Line and through the Metro Tunnel when complete.

#### What we are doing

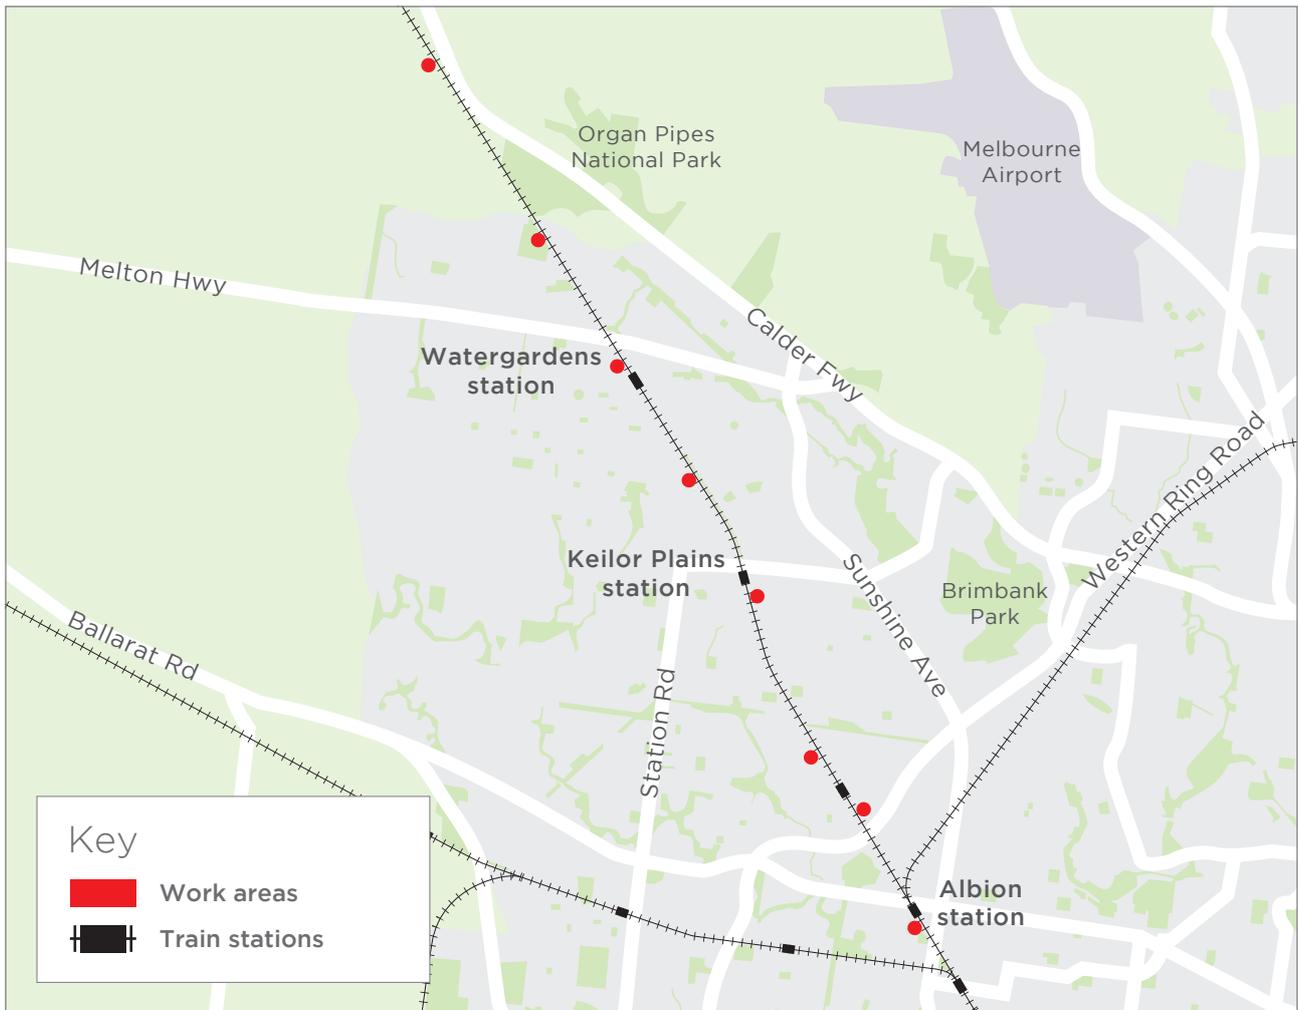

- Installing communications and power services to support the Sunbury Line's new high capacity signalling system
- Non-destructive digging (NDD) to investigate ground conditions and confirm the area is free of underground services. NDD uses pressurised water to break up and vacuum soil to expose assets and services without damaging them
- Excavating trench routes and installing cables underground
- Works will take place at electrical substation sites along the rail corridor between Albion and Calder Park.

#### When

- Wednesday 14 April to Wednesday 30 June 2021
- 7am to 6pm, Monday to Friday
- 8am to 1pm Saturdays.

#### What to be aware of

- These works are expected to generate low to medium levels of noise and vibration
- There will be an increase in construction vehicles travelling on local roads to access the site
- Traffic controllers may be present at times to assist with vehicle, pedestrian and cyclist movements around construction sites
- Construction machinery will transport materials and access the sites via the following locations:
  - Talmage Street, Albion
  - St Albans Road, St Albans
  - Willaton Street, St Albans
  - East Esplanade, St Albans
  - Sydenham Road, Sydenham
  - Victoria Road, Calder Park
  - Holden Road, Calder Park.

### Health and safety

Works on the Sunbury Line Upgrade are progressing with strict COVIDsafe plans in place.

The health and safety of our workforce and community remains our top priority.

For more information and advice about the coronavirus (COVID-19), please visit [coronavirus.vic.gov.au](https://coronavirus.vic.gov.au).
