

Waurun Ponds Station upgrade

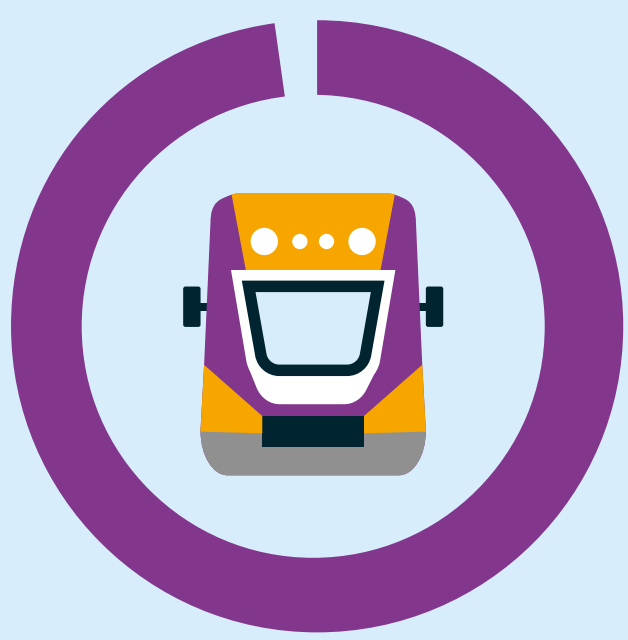

What you told us about the project

The upgraded Waurun Ponds Station now features a new second platform, duplicated track, an accessible pedestrian overpass with stairs, ramps and lifts, a new forecourt and more than 200 new and upgraded car parking spaces.

The upgrades have enabled 20 peak and shoulder peak services to be extended to and from Waurun Ponds Station each week, with two extended services in the morning and two in the evening on weekdays.

The Waurun Ponds Station upgrade is the first step in the staged upgrade of the Geelong Line to enable more frequent and reliable services for Victoria's fastest-growing regional city.

An evaluation survey was conducted following the completion of the Waurun Ponds Station upgrade earlier this year. Below is a summary of your feedback.

98%

of people told us they would benefit from the additional train services delivered as part of the station upgrade.

96%

of people told us they feel safer at the upgraded station due to the additional lighting and CCTV.

97%

of people told us that car parking has become easier to access now the station upgrade is complete.

85%

of people told us they will use the new shared user path on the southern side of the station.

96%

of people told us construction impacts during the upgrade were managed in a fair and responsible way.
