

# Works notice

## Tower crane demobilisation and above ground structure works under road closure

### Little La Trobe Street

From Wednesday 10 January 2024

As previously advised in the State Library Station December and January construction update, above ground structure works and the demobilisation of a tower crane will require a road closure of Little La Trobe Street, between Elizabeth and Swanston streets.

#### When we'll be working

- 24-hours, Monday to Sunday
- Mobile crane under road and footpath closure from **7am Wednesday 10 January** until the work is complete
- Tower crane demobilisation from **13 January** until the work is complete

The timing of work may change depending on weather.

#### What we'll be doing

- Closing Little La Trobe Street and a section of the southern footpath to facilitate the demobilisation of a tower crane from the La Trobe Street site and to use a mobile crane on Little La Trobe Street to construct the eastern above ground structure
- These works involve setting up a 250-tonne mobile crane on the road which will lift large pre-cast concrete panels from trucks onto the Little La Trobe Street site

- The crane will remain on the road even when it is not in operation
- Closing the southern footpath on Little La Trobe Street with no pedestrian access from Swanston Street except to the Scape building entrance on Little La Trobe Street (see map)
- Demobilising a tower crane from the La Trobe Street site
- These works involve the use of a mobile crane, trucks, hand tools, elevated works platforms, power tools and rattle guns
- Due to its size, the boom from the tower crane will extend across Little La Trobe Street under the existing road and footpath closure.
- There will be no through access to Little La Trobe Street from Swanston Street for pedestrians, motorists, or cyclists
- Pedestrian access to Scape will be maintained from Swanston Street only
- Please allow additional travel time during these works
- Some of these works will generate high levels of noise. Please contact the project team if you have any concerns.

#### Where

- Little La Trobe Street, between Elizabeth and Swanston streets
- La Trobe and Little La Trobe Street sites.

#### What to be aware of

- The works are expected to take up to two weeks to complete with the aim to reopen the road and footpath as soon as works are complete
- During this closure, motorist access to Little La Trobe Street and Literature Lane will be maintained via Elizabeth Street (see map)
- Local vehicle access to businesses and residential buildings will be maintained at all times under traffic control

Thank you for your patience while we undertake these works.
