

WOMEN in Transport

Women in Transport Mentoring Program

CALLING ALL TRANSPORT MENTORS!

- Do you have at least 5 years' experience in your field or discipline?
- Are you willing to meet monthly, share your experience and help a mentee navigate workplace challenges?
- Are you seeking to give back, while also developing your own professional skills and network?

If you have answered yes to all of the above, you are in the right place! We encourage and welcome all genders as mentors.

Applications can be submitted from the **4th of March** via the new **Art of Mentoring platform**.

Please take your time to complete the application in full, to allow your mentee match to be as accurate as possible.

This year's program will offer a number of **face-to-face program events**, dedicated networking events and online check-in sessions over the 6-month period.

Benefits for Mentors:

- Support industry sustainability while learning about challenges faced by diverse groups.
- Contribute to meeting workforce demand.
- Embrace continuous learning.
- Stay updated on emerging industry trends and leadership tips at the WiT events.
- Enhance your coaching skills through active listening, questioning, and providing feedback.

How do I find out more?

Checkout an employer's perspective via the **WiT Promo Video**

Review the **WiT Mentoring Guide 2024**

See the 2024 calendar of events on the **WiT Mentoring Journey Map**
