

WORKS COMPLETED

Upgraded intersection at Mickleham and Somerton roads.

MICKLEHAM ROAD UPGRADE – STAGE 1

MAY 2025

Major works on the Mickleham Road Upgrade – Stage 1 are complete, with all new lanes open, providing motorists with safer and more reliable journeys.

Thank you for your continued patience while we added extra lanes in both directions between Somerton Road and Dellamore Boulevard, upgraded key intersections, replaced the roundabout with new traffic lights at Mickleham and Somerton roads,

and built new walking and cycling paths to improve access to local shops and other amenities.

Finishing works

We'll complete our finishing works by mid-year. These include landscaping, working with partners to activate street lighting, and minor road works. To safely complete these works, we'll have some temporary lane closures and speed reductions in place at times.

This is our final Community Update. If you have any questions, you can still contact us on **1800 105 105** or email contact@bigbuild.vic.gov.au

MICKLEHAM ROAD UPGRADE — STAGE 1

BEFORE AND AFTER

Mickleham and Somerton roads intersection

Dellamore and Greenvale Gardens boulevards intersection

Lemonwood Drive and Hillview Road intersections

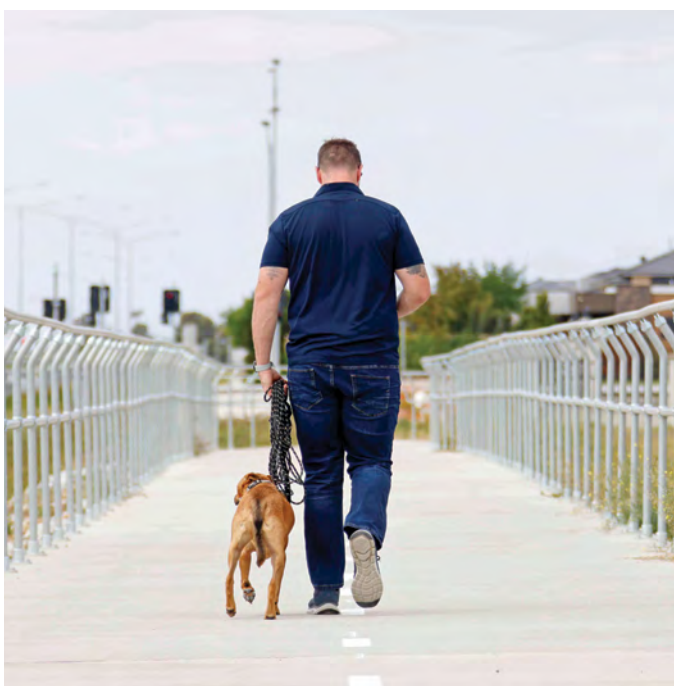

Aitken College and Mickleham Road intersection

PROJECT HIGHLIGHTS

More reliable journeys: We've added new lanes and upgraded key intersections to help you get home safer and sooner.

New and upgraded paths: We've added more than 4 kilometres of new shared walking and cycling paths, and pedestrian crossings at traffic lights.

Upgraded intersections: We've upgraded several intersections with traffic lights and new lanes, improving safety and traffic flow for all users.

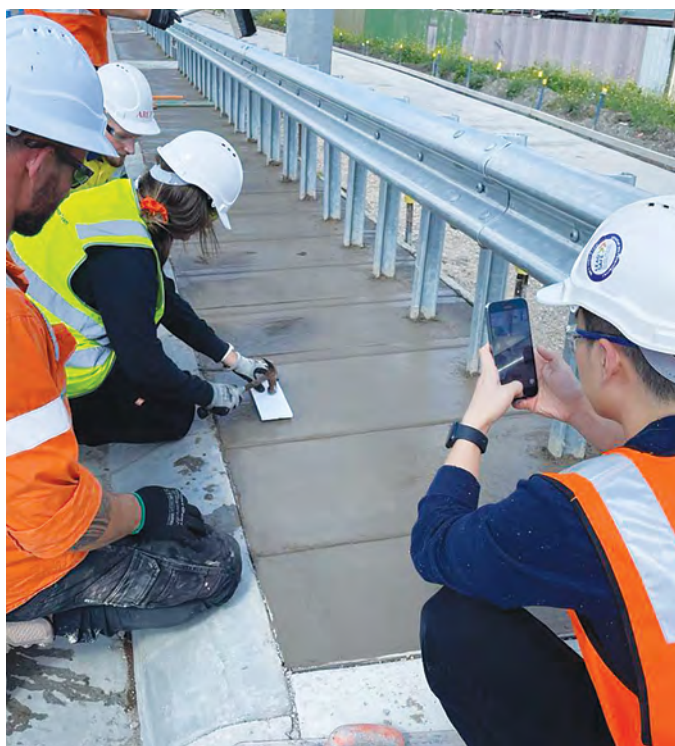

TREE PLANTING

Working with local schools: We partnered with local schools to plant trees near the road and on school grounds, teaching students about sustainability and the environment.

Improved safety features: The upgraded road includes safety improvements such as road safety barriers and more street lighting.

Innovative solutions: We led the way with sustainable construction, using calcined clay in our concrete mix, reducing carbon emissions by up to 50% compared to general-purpose cement.

Thanks for celebrating with us!

We hosted a free event at the Strawflower Circuit Playground in December to thank the community for their patience and support while we upgraded Mickleham Road.

Hundreds of locals joined us to celebrate the completion of the Mickleham Road Upgrade – Stage 1.

It was a fun-filled evening with lots of food and activities for the whole family. The kids had a great time getting up close to the animals, scoring goals with the footy, or taking home a showbag, among many other activities.

We'd like to thank the local businesses and community groups that helped make the event such a success. Most of all, we'd like to thank you, the community, for visiting.

Building big in the outer north

The Mickleham Road Upgrade – Stage 1 is one of several key projects aimed at improving transport infrastructure across Melbourne's outer northern suburbs.

Together with upgrades of Bridge Inn, Childs, Craigieburn, O'Herns and Plenty roads, residents in the outer north will continue to benefit from an improved road network.

Mickleham Road Upgrade – Stage 2

Planning and development work for the proposed upgrade of Mickleham Road between Dellamore Boulevard and Craigieburn Road is continuing.

Scan the QR code on the front page to subscribe for updates as the project progresses.
