

Seaford level crossing removals

Online information session

Wednesday 19 November 2025

Acknowledgement of Country

What we'll cover in this session

1. Housekeeping
2. About us
3. Project overview, why these level crossings need to go, benefits of the design
4. New Seaford Station
5. Timeline
6. Site investigations
7. How we work with the community
8. Staying in touch
9. Q&As

About us

Project overview

- We're removing the dangerous and congested level crossings at Armstrongs Road and Station Street in Seaford by building two separate rail bridges over the roads to make Seaford boom gate free.
- We'll also build a new modern, accessible Seaford Station.
- We're undertaking site investigations in the Seaford Station car park, along the rail line and around both level crossings.
- Information from site investigations will help inform project development.
- The level crossings will be gone, and the new Seaford Station will open in **2029**.
- Removing these level crossings will help make the Frankston Line level crossing free in **2029**.

Boom gates down at the Armstrongs Road level crossing

Why these level crossings need to go

More than **5000** vehicles travel through these level crossings each day

Up to **40** trains travel through these crossings during the morning peak (7am to 9am)

Boom gates are down for more than **half an hour** every morning peak (7am to 9am)

Seven near misses near misses at these crossings since 2016.

Boom gates down at the Station Street level crossing

Benefits of this design

New modern and accessible Seaford Station

More opportunities for new community spaces and improved car parking

Improved walking and cycling connections

Improved safety

Makes journeys faster and more reliable

Paves the way for more capacity on the Frankston Line

Clockwise from top: Rail bridges in Carrum, Parkdale and the elevated Moreland Station

New Seaford Station

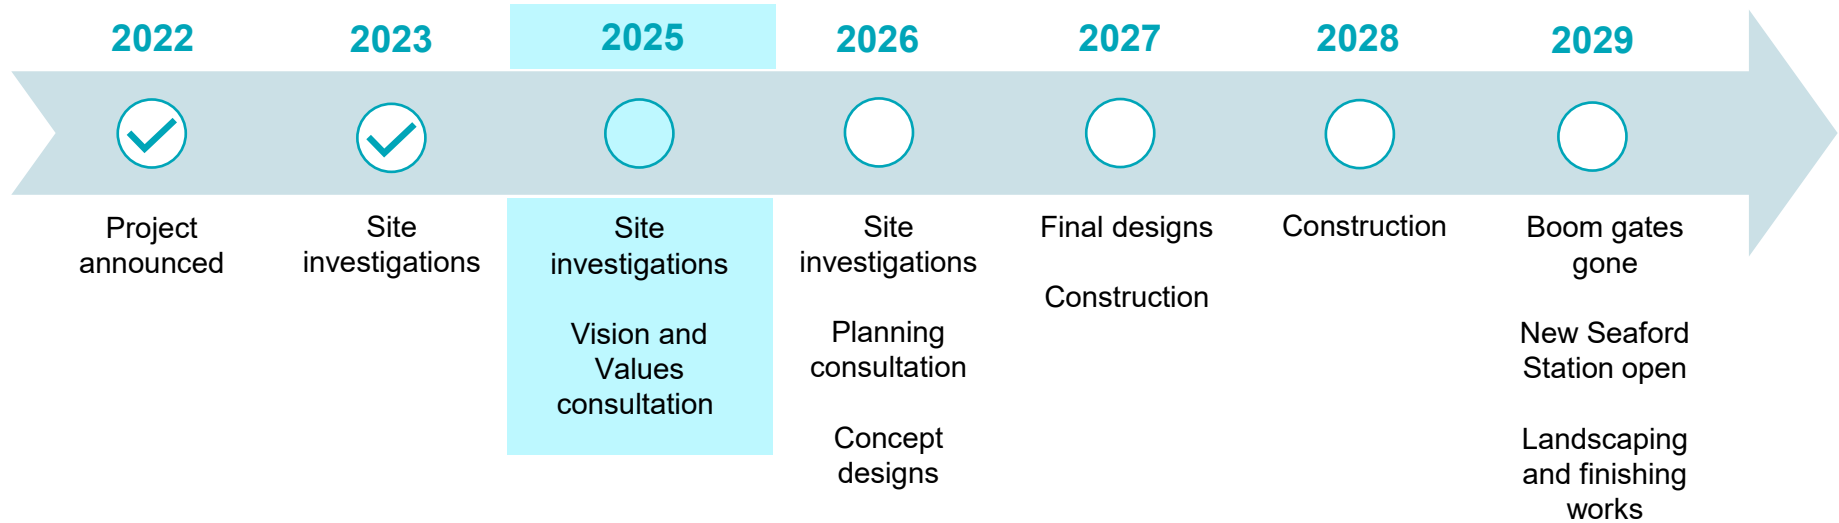

Opening in 2029, the elevated station will have better facilities for passengers, including:

- seating and standing areas on the platforms protected from weather
- upgraded modern facilities with two station entries
- lifts and stairs making it more accessible for everyone to catch the train
- landscaping and seating areas
- CCTV and lighting to provide a safer station precinct
- bike facilities including a Parkiteer and bike hoops.

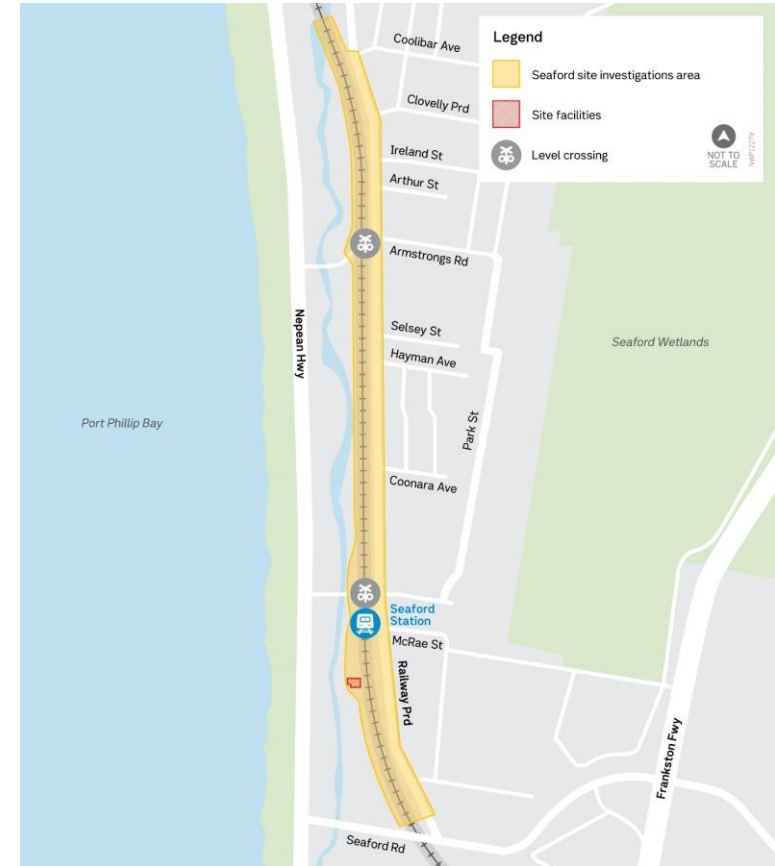

The new elevated Carrum and Parkdale stations

Project timeline

Site investigations

- Until early next year we're carrying out:
 - site investigations
 - ecological observations
 - heritage surveys
 - traffic studies.
- These investigations and engineering works will help form the project's concept designs.
- We thank the community for their patience and we're working closely with local stakeholders as we complete these works.

Stages of consultation and engagement

Vision and values – 2025

We start by asking how you move around the area and what's about Seaford.

Concept designs and planning approvals – 2026

We'll release concept designs and the community will have the opportunity to provide feedback on the station precinct design, open space and walking and cycling connections. We'll also seek community feedback on a range of planning matters.

Final designs – 2027

We'll show the community updated designs, shaped by local feedback, and let you know what to expect during construction.

Construction – 2028 to 2029

We work with the local community and traders to help manage disruptions.

We want to hear from you

your say

Vision and values

Help us achieve the best outcome for your community by sharing what you love about Seaford and how you move around the area.

Complete the online survey, drop a pin on our interactive map surveys or ask questions at **engage.vic.gov.au/lxrp-seaford** by **11.59pm, Sunday 30 November.**

Join us for an in-person information session at Seaford Community Centre from **5.30pm to 8.15pm, Tuesday 25 November.**
Scan the QR code or visit **trybooking.com/DGVUL** to register.

Staying in touch

Complete the online survey or ask questions at **engage.vic.gov.au/lxrp-seaford** by **11.59pm, Sunday 30 November**

Sign up for email updates at **levelcrossings.vic.gov.au/subscribe** and under the Frankston Line select **Seaford**

Visit **levelcrossings.vic.gov.au** for more information

Call us on **1800 105 105**, email **levelcrossings@bigbuild.vic.gov.au**

Follow us on social media or send us a private message on the Level Crossing Removal Project Facebook page

Thank you
