

Mount Waverley works update

October and November 2026

Works are underway in Mount Waverley to deliver Suburban Rail Loop (SRL) East for Melbourne and Victoria.

What we are doing

Day works

7am to 6pm Monday to Friday
and 7am to 1pm Saturday

Extended works

Early October to mid October

6pm to 10pm Monday to Friday and 1pm to 4pm Saturday

Mid October to mid 2027

1pm to 4pm Saturday

The following works will be carried out during October and November 2026 within the acoustic shed.

Where	When	What we are doing	What to expect
Emergency support facility site, Mount Waverley	 Early to mid October 2026	— Electrical works	— Low levels of noise and construction activity
Emergency support facility site, Mount Waverley	  Ongoing until early 2027	— Installing temporary underground support structures known as ground anchors	— Traffic management in place — Low levels of noise, dust and vibration
Emergency support facility site, Mount Waverley	  Ongoing until mid 2027	— Excavation	— Traffic management in place — Low levels of noise, dust and vibration — Intermittent overnight deliveries

Note: Timing of the works may change due to weather or ground conditions.

There will continue to be large equipment and machinery delivered to and from the Mount Waverley worksite. Most deliveries can be moved on a normal truck load during the day, however there will be some oversized loads at night to reduce traffic impacts.

Impacts

As with all major infrastructure projects, surrounding communities may experience some impacts during construction. The project supports businesses and residents to continue to live, work, study and shop in their community. Please contact us on **1800 105 105** to discuss support available if you are impacted by our works.

How we will manage our works

We will minimise impacts to the community by:

- Accessing site via the gate at High Street Road only
- Installing road safety and detour signage
- Transporting materials from site in covered trucks to minimise dust
- Maintaining access to homes and businesses
- Installing fencing and hoarding to reduce construction noise and dust
- Using street sweepers to keep roads clean
- Using water and dust suppressants
- Monitoring noise, dust and vibration levels
- Selecting construction equipment and methodology to reduce noise, dust and vibration impacts to the community
- Positioning equipment as far as possible from residential properties and turning it off when not in use

Thank you for your patience and cooperation as we progress the delivery of SRL East at Mount Waverley.
