

Goornong Station

The Victorian Government is delivering three new stations at Goornong, Huntly and Raywood to give people in these growing communities access to train services close to where they live.

The new station at Goornong will be located between the Midland Highway and the rail line in Goornong, to the west of the Chute Street/Goornong-Barnadown Road level crossing.

The new station will include:

- a single-sided platform on the south side of the rail line
- lighting, seating and shelter
- signage, CCTV and public address (PA) system
- car parking with lighting
- bicycle hoops
- signalised pedestrian crossing at Midland Highway.

Construction of the new Goornong Station is underway and is targeted for completion in late 2021.

What are the benefits?

The new Goornong Station will give people in these growing communities access to the train network close to where they live.

Sealed car parking and a signalised pedestrian crossing at Midland Highway will make it easier for passengers to park and catch the train.

Ramps will make it easier to access the platform for passengers with mobility aids or prams.

Lighting and CCTV will provide station users with added security.

What to be aware of?

Construction of the new Goornong Station will progress during September and October while trains aren't running on the Echuca Line.

There will be machinery, heavy vehicles and workers within the rail corridor and surrounding areas.

You may notice an increase in noise, dust and vehicle movements while works are taking place.

Plan your journey

Coaches will replace trains between Bendigo and Echuca from **Wednesday, 1 September until Sunday, 31 October** to enable works on the Bendigo and Echuca Line Upgrade to progress.

Trains will continue to run between Bendigo and Epsom for local passengers.

The speed limit on the Midland Highway between Goornong-Fosterville Road and Darling Street has been temporarily reduced to 40km/h.

Throughout construction, traffic may at times need to wait up to five minutes while large vehicles are safely steered into the construction area.

Please plan your journey ahead of time to avoid delays. Allow extra travel time and take care when travelling through the area.

Who is responsible?

The new Goornong Station is being delivered by Rail Projects Victoria on behalf of the Victorian Government.

Symal Infrastructure has been appointed to design and build the new stations at Goornong, Huntly and Raywood.

Huntly Station is targeted for completion in mid-2022, with Raywood Station to follow in late 2022.

Bendigo and Echuca Line Upgrade

The new stations at Goornong, Raywood and Huntly are being delivered as part of the Bendigo and Echuca Line Upgrade, which will enable trains to travel at higher speeds on the Echuca Line and more frequent services between Bendigo, Epsom and Eaglehawk.

Keeping you informed

Please sign up to our email updates via regionalrailrevival.vic.gov.au/bendigoechuca so we can continue to keep you informed about works in your area, or call 1800 105 105 (24 hours a day, 7 days a week) for more information.

We are holding an online information session to keep locals informed of our works.

The information session will be held at **5pm on Monday 4 October 2021**. Visit our website to register.
