

The new Altona-bound entry ramp
at Edgars Road

MAY 2022
M80 UPGRADE

SYDNEY ROAD TO EDGARS ROAD

We've upgraded the M80 Ring Road between Sydney Road and Edgars Road.

We've added new lanes, upgraded key interchanges, built new on and off ramps and installed a smart freeway management system to provide safer and more reliable journeys for motorists in Melbourne's north.

Major works complete

We've reached a major milestone on the M80 Upgrade between Sydney Road and Edgars Road, with all major works now complete a year ahead of schedule and speed limits back to 100km/h.

The project has transformed one of Melbourne's busiest freeways, providing additional capacity and improving safety for more than 165,000 drivers each day.

We've installed a new smart freeway management system and ramp metering technology on this section of the M80. This innovative new system helps make travel times more reliable by controlling the flow of traffic on and entering the freeway. The system will also enable faster and more efficient response times to traffic incidents.

The new lanes and ramps were opened in stages between November 2021 and March 2022, allowing thousands of drivers to take advantage of the additional capacity, more than a year ahead of schedule.

While major works are complete, we'll continue to undertake landscaping works and some minor finishing works.

There may be some lane and ramp closures until the middle of the year to help us complete these works.

Thank you for your patience while we completed the upgrade.

Paving the way to sustainable outcomes

We've led the way in sustainability, becoming the first major road project in Victoria to include recycled content in every layer of road pavement. The equivalent of 35.5 million plastic bags were reused, which would otherwise have ended up in landfill, along with the equivalent of more than 22 million glass bottles, 800,000 toner cartridges and 820 passenger car tyres.

We'd like to hear from you

Major works are now complete, a year ahead of schedule, with all new freeway lanes and ramps open, the smart freeway management system operational and the 100km/h speed limit reinstated.

We want your feedback on how we've communicated with you since our last survey in July 2021.

Your feedback is important to us and will help shape how we keep you informed about future road projects.

To tell us what you think, please complete our survey by visiting engage.vic.gov.au/m80-upgrade

Alternatively, you can scan the QR code. The survey will be open until Wednesday 1 June 2022.

The survey is completely anonymous. You can also download a copy from the Engage Vic website or call us on **1800 105 105** and select **option 5**.

SOME OF OUR ACHIEVEMENTS TO DATE:

**MORE THAN
400,000 TONNES**

of material was recycled or donated to reuse facilities instead of landfill

**OVER 60,000
TONNES**

of asphalt was laid

5 NEW

elevated ramps were built

51,000 TONNES

of recycled pavement used, including 14,000 tonnes of reclaimed asphalt

Upgraded Blaxland Avenue overpass
