

Works Notification

Fence installation works Watergardens Station

26 September - 10 October 2022

Construction is continuing along the Sunbury rail corridor as part of the Sunbury Line Upgrade. We wish to advise of upcoming fence installation works at Watergardens Station.

What we are doing

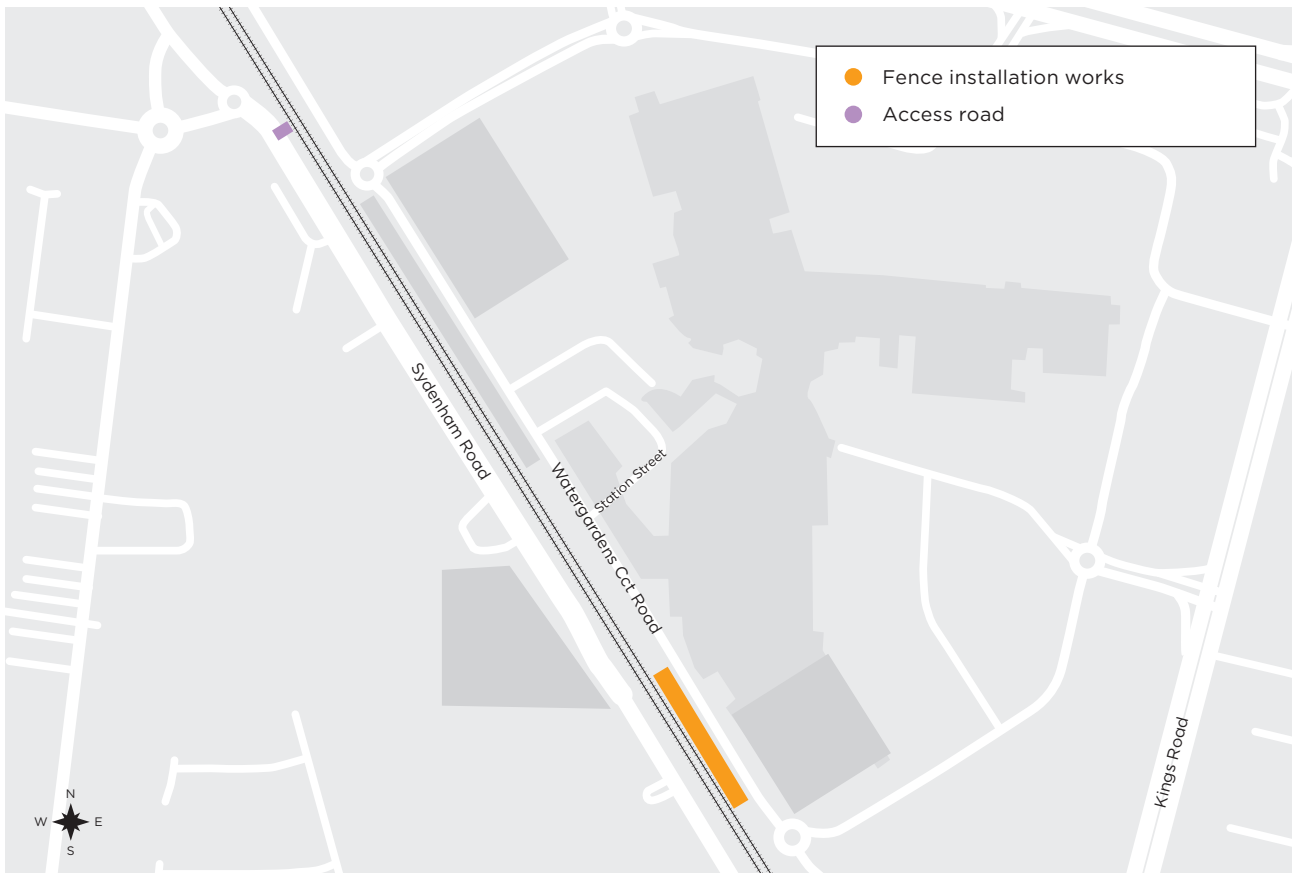

- Non-destructive digging (NDD) to investigate ground conditions and confirm the area is free of underground services. NDD uses pressurised water to break up and vacuum soil to expose assets and services without damaging them
- Installing nine fencing panels along the corridor
- Drilling piles using an excavator with a drill-like attachment
- Pouring concrete and installing posts into piles
- Connecting panels between the fence posts
- Works involve the use of excavators, a roller, a NDD truck, hand tools, and other construction machinery.

When

- From Monday 26 September to Monday 10 October 2022
- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays.

What to be aware of

- New fences will replace older fencing that is no longer fit for purpose
- These works are expected to generate low levels of noise and vibration
- There will be an increase in construction machinery accessing the rail corridor during this time
- Traffic controllers will be present at times to assist construction vehicle access, pedestrian and cyclist movements
- Construction machinery will transport materials and access the rail corridor via Sydenham Road.
