

Works Notification

11 JUNE 2025

Harris Street walking and cycling path works continue

When we'll be working

From **mid-June – late August 2025**.

Day work hours are Monday to Friday, 7am to 5pm and Saturday, 7am to 1pm.

Various night shifts will be scheduled between **8pm to 5am throughout June – August 2025**.

What we'll be doing

As we approach project completion in late 2025, construction activities will continue along Harris Street and in the surrounding area.

Remaining works around the Harris Street walking and cycling path that will take place during **June – late-July** include:

- Installing the final cladding pieces to the elevated walking and cycling path
- Harris Street road resurfacing and line marking
- Landscaping

Other works around the area include:

- Reinstating the Yarraville Gardens Precinct area including the bluestone wall, pavement and other landscaping
- Installing a new sewage line on the northern and southern side of Whitehall Street, near the Harris Street and Whitehall Street intersection
- Asphaltting on Harris Street

Where works are expected to be particularly disruptive, the West Gate Tunnel Project team will be in touch before they begin.

Upcoming works

Harris Street

From **mid-June – late-July 2025**, the current overnight Harris Street site set up will change and we will close approximately eight car spaces 24/7 during Yarraville Gardens Precinct reinstatement and line marking works. Throughout most of the works, Harris Street will remain open to traffic in both directions. However, between **mid-June and August**, short-term closures will be required during certain day and night works to safely complete construction activities on the road.

Whitehall Street

Whitehall Street northbound and southbound lane closures between Somerville Road and Youell Street will be required at various times between **June and August** to prepare and facilitate sewage line and road works. A section of the Whitehall Street shared walking and cycling path may be impacted at times.
