

PROJECT OVERVIEW

BARWON HEADS ROAD UPGRADE –STAGE 2

SEPTEMBER 2023

Planning is underway for Stage 2 of the Barwon Heads Road Upgrade.

The Australian and Victorian governments have announced funding for the upgrade, and we're exploring potential options to improve safety, increase the capacity of the road, make your journey more reliable and make it easier to walk and cycle in the area.

As part of our investigations, we're looking at potential solutions to:

- upgrade Barwon Heads Road between Reserve Road, Charlemont, and Lower Duneed Road, Armstrong Creek
- add more lanes
- upgrade key intersections
- build walking and cycling paths to improve connectivity.

In early 2023, we asked for your feedback to help inform planning, shape the development of design options and refine the scope of the upgrade.

This feedback is being used to inform a business case that is expected to be complete in 2023, as well as being included in a report for the Minister for Planning as part of the planning assessment for the upgrade.

Environment and heritage

We'll prepare an Environmental Management Framework in consultation with the City of Greater Geelong and Surf Coast Shire that includes an overarching framework of measures to reduce and manage any impacts on the environment and amenity during construction.

A Cultural Heritage Management Plan is also being prepared. This will make sure that local Aboriginal cultural heritage is managed in accordance with the Aboriginal Heritage Act during any works we undertake.

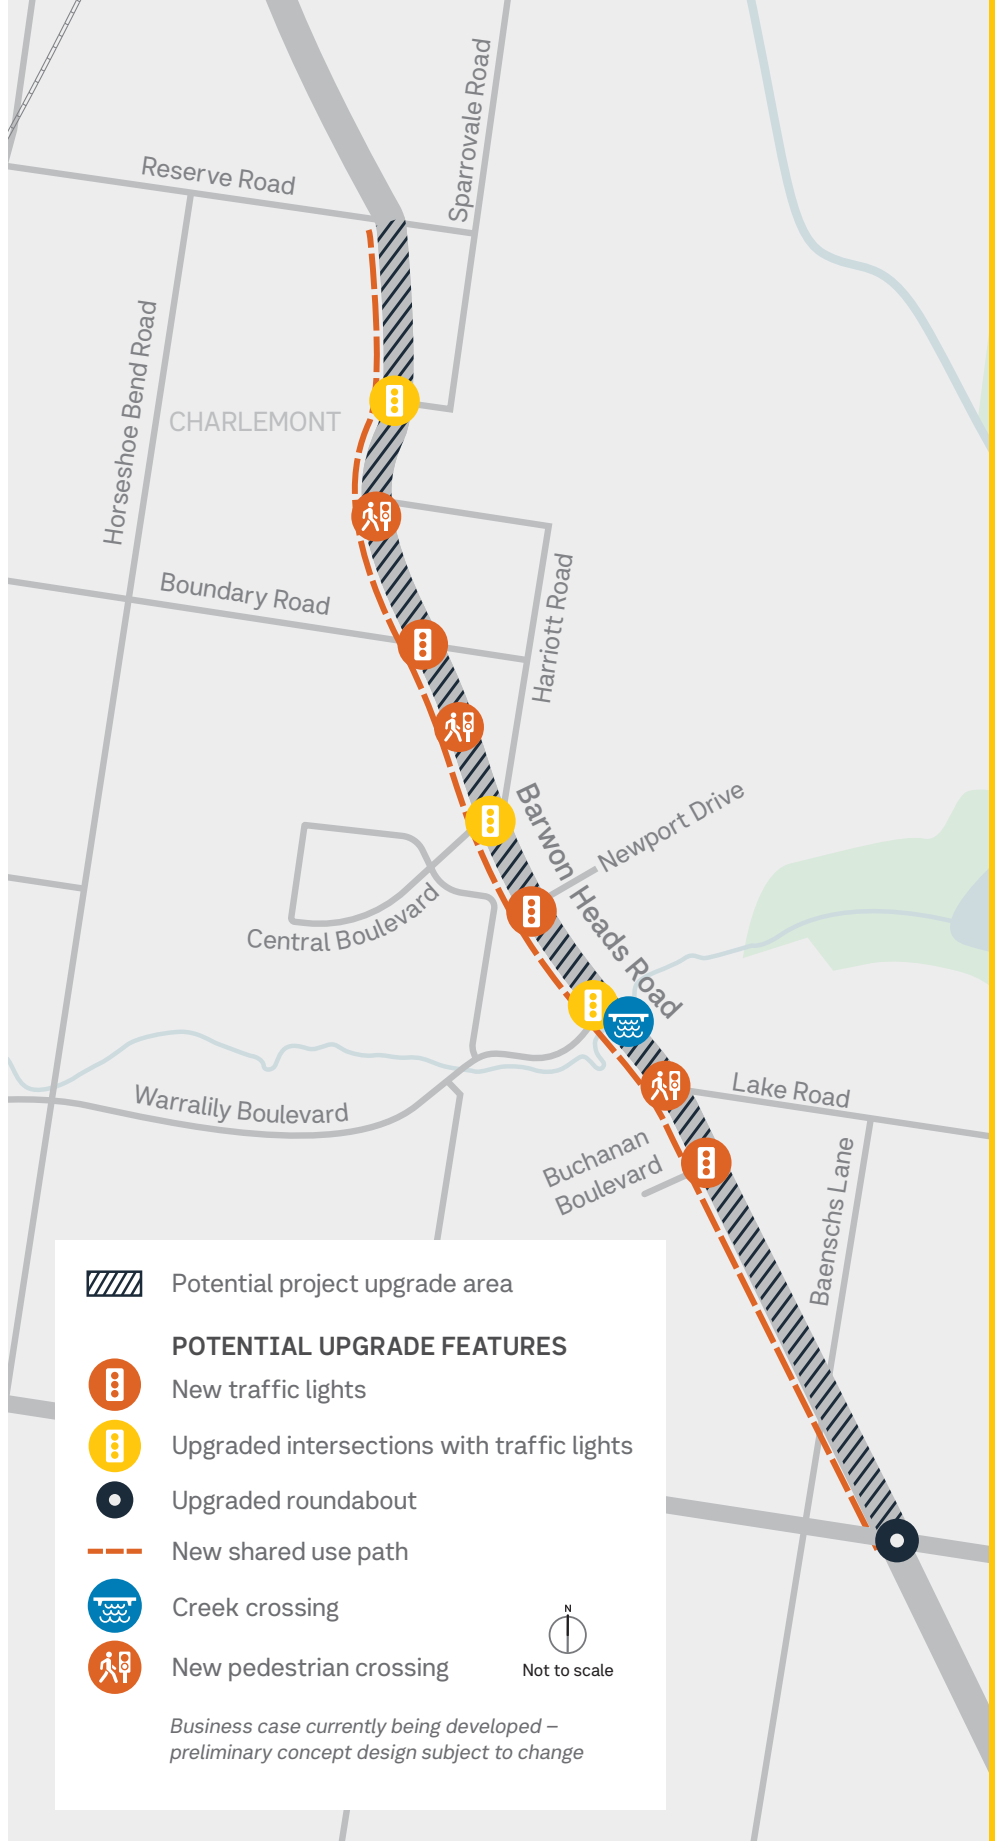

Landscaping and urban design

We'll submit a landscape and urban design statement to the Minister for Planning. The statement will outline the proposed landscape and urban design treatments, aimed at delivering a positive legacy for the local community.
