Impacts

As with all major infrastructure projects, surrounding communities may experience some impacts during construction. The Project supports businesses and residents to continue to live, work, study and shop in their community.

Please contact us on **1800 105 105** to discuss support available if you are impacted by our works.

How we will manage our works

We will minimise impacts to the community by:

- Transporting materials from site in covered trucks to minimise dust
- Installing road safety and detour signage
- Maintaining access to homes and businesses
- Maintaining access to Glendale Street, Montclair Avenue and Euneva West car parks
- Monitoring noise, dust and vibration levels
- Turning off equipment when not in use
- Using noise blankets on equipment
- Using water and dust suppressants
- Minimising light spill
- Coordinating disruptions with other construction in the area.

Thank you for your patience and cooperation as we progress the delivery of SRL East at Glen Waverley.

Coleman Parade will close from late-August to late 2024 to enable underground service relocation works to continue. Further information on works will be provided in next month's works update.
