Upcoming works on M80 Ring Road and Greensborough Bypass

Community Update
September 2025

BIG BUILD
M80 RING ROAD

We're building the new M80 Ring Road Interchange in Greensborough and Watsonia North, with express lanes to the North East Link tunnels.

We've started building the new M80 Ring Road Interchange in Greensborough, with express lanes to the North East Link tunnels and connections for local trips.

We're removing the traffic lights at the existing M80 Ring Road intersection to ease congestion and slash travel times.

The new interchange will seamlessly connect the M80 Ring Road to the Greensborough Bypass, an upgraded Greensborough Road, and will add express lanes to the new North East Link Tunnels in Watsonia.

The M80 Ring Road Interchange design minimises the height

of ramps and overpass bridges to mitigate visual and noise impacts to the residents.

Five new lanes and smart technology from Plenty Road to a new M80 Ring Road Interchange will also deliver faster, safer trips for drivers.

Works in the area will increase significantly as we continue to build the new interchange and extra lanes on the M80 Ring Road and Greensborough Bypass.

What you need to know

To support ongoing works on the M80 Ring Road and Greensborough Bypass, we're building the new interchange in stages to reduce construction impacts and disruptions.

To do this, we'll be working overnight and on weekends from **August to December 2025**. These works will involve realigning the M80 Ring Road between Plenty Road and Greensborough Bypass to make room to construct the new interchange and additional lanes.

In early September, we'll shift Altona-bound traffic onto new lanes to open new working spaces. During this time, we'll temporarily close the exit ramp to Plenty Road to prepare to build new lanes.

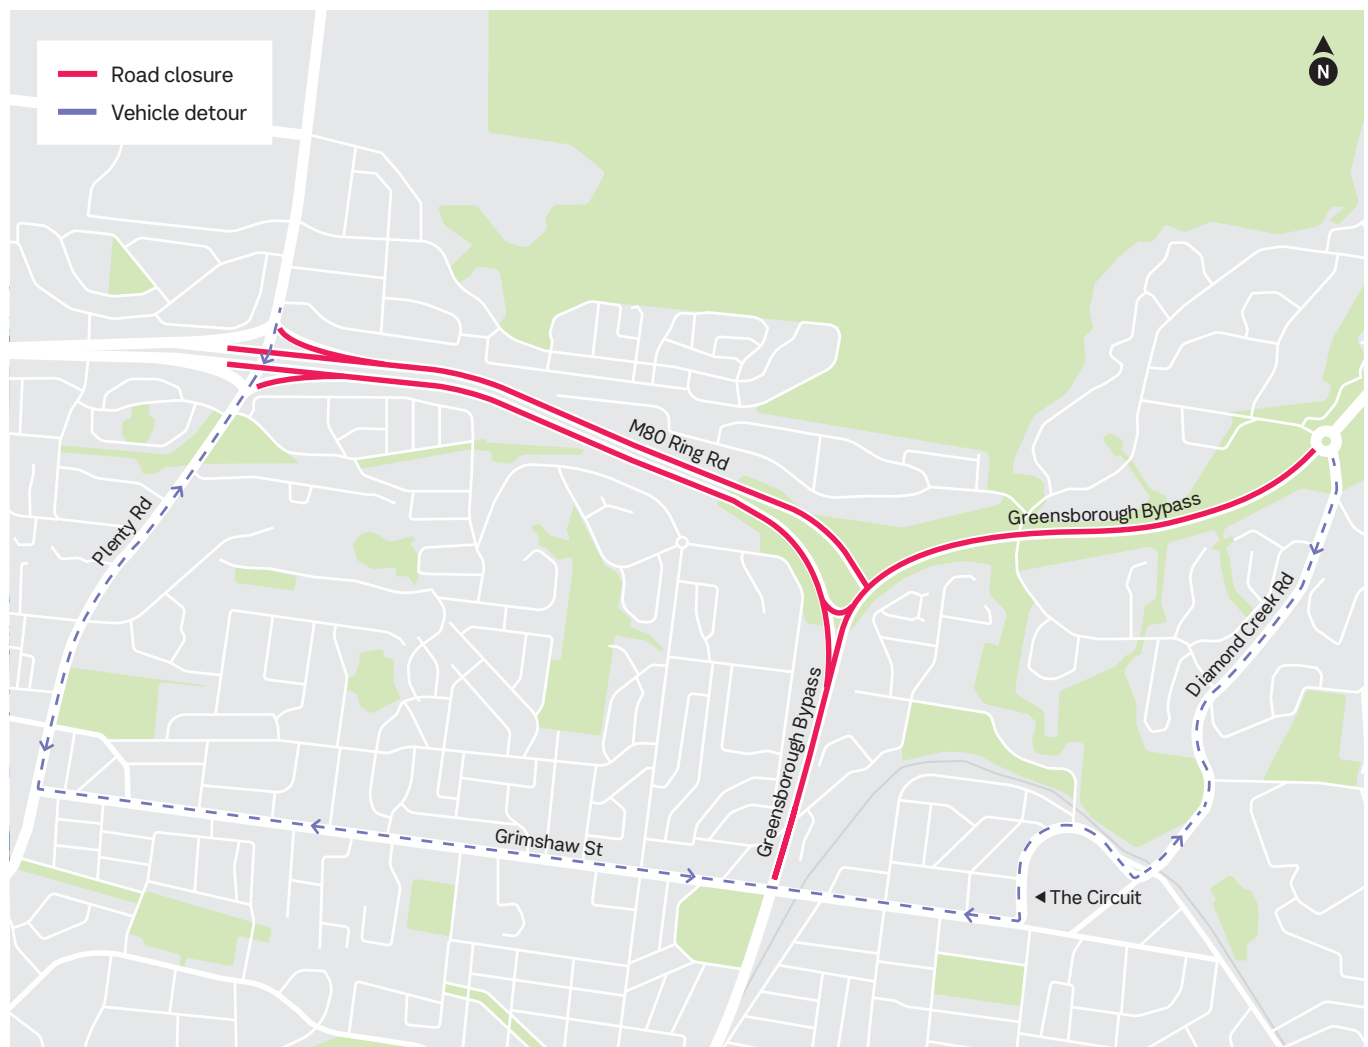

In mid-September, we'll build a new temporary M80 Ring Road Interchange at the Greensborough Bypass and relocate existing traffic lights. This traffic arrangement will be in place for up to 18 months.

We'll complete works later this year along the M80 Ring Road Greensborough-bound to make room for new work areas and to move traffic onto new lanes between Plenty Road and Greensborough Bypass.

Upcoming works

From 7.30pm, Friday 19 September to 5.30am, Monday 22 September, we'll close the M80 Ring Road in both directions between Plenty Road and Greensborough Bypass, and the Greensborough Bypass between Diamond Creek Road and Grimshaw Street. Detours will be in place via Grimshaw Street, Plenty Road and Diamond Creek Road. Delays of up to 60 minutes are expected.

Following works in September, the existing traffic lights will be relocated, and crews will create a new temporary intersection closer to the Macorna Street walking and cycling bridge.

Full road closure of M80 Ring Road and Greensborough Bypass from 7.30pm, Friday 19 September to 5.30am, Monday 22 September

Upcoming disruptions on M80 Ring Road and Greensborough Bypass

Work activities	Traffic impact	Date and time	Detour
Preparation works to shift traffic to new lanes on the M80 Ring Road	M80 Ring Road Altona-bound exit ramp to Plenty Road closed.	9pm, Friday 5 September to 7pm, Saturday 6 September.	Detour via Grimshaw Street and Plenty Road. Delays of up to 15 minutes.
	M80 Ring Road Altona-bound between Greensborough Bypass and Plenty Road.	7pm, Saturday 6 September to 5am, Monday 8 September.	Detour via Grimshaw Street and Plenty Road. Delays of up to 20 minutes.
Moving M80 Ring Road Altona-bound traffic	M80 Ring Road closed in both directions between Plenty Road and Greensborough Bypass. Greensborough Bypass closed in both directions between Grimshaw Street and the Diamond Creek Road roundabout.	7.30pm, Friday 19 September to 5.30am, Monday 22 September. A new intersection will be in operation from Monday 22 September at the M80 Ring Road Interchange.	Detour via Grimshaw Street, Plenty Road and Diamond Creek Road. Delays of up to 60 minutes.

Later this year, crews will move Greensborough-bound traffic on the M80 Ring Road onto newly built lanes between Plenty Road and Macorna Street walking and cycling bridge.

What's next?

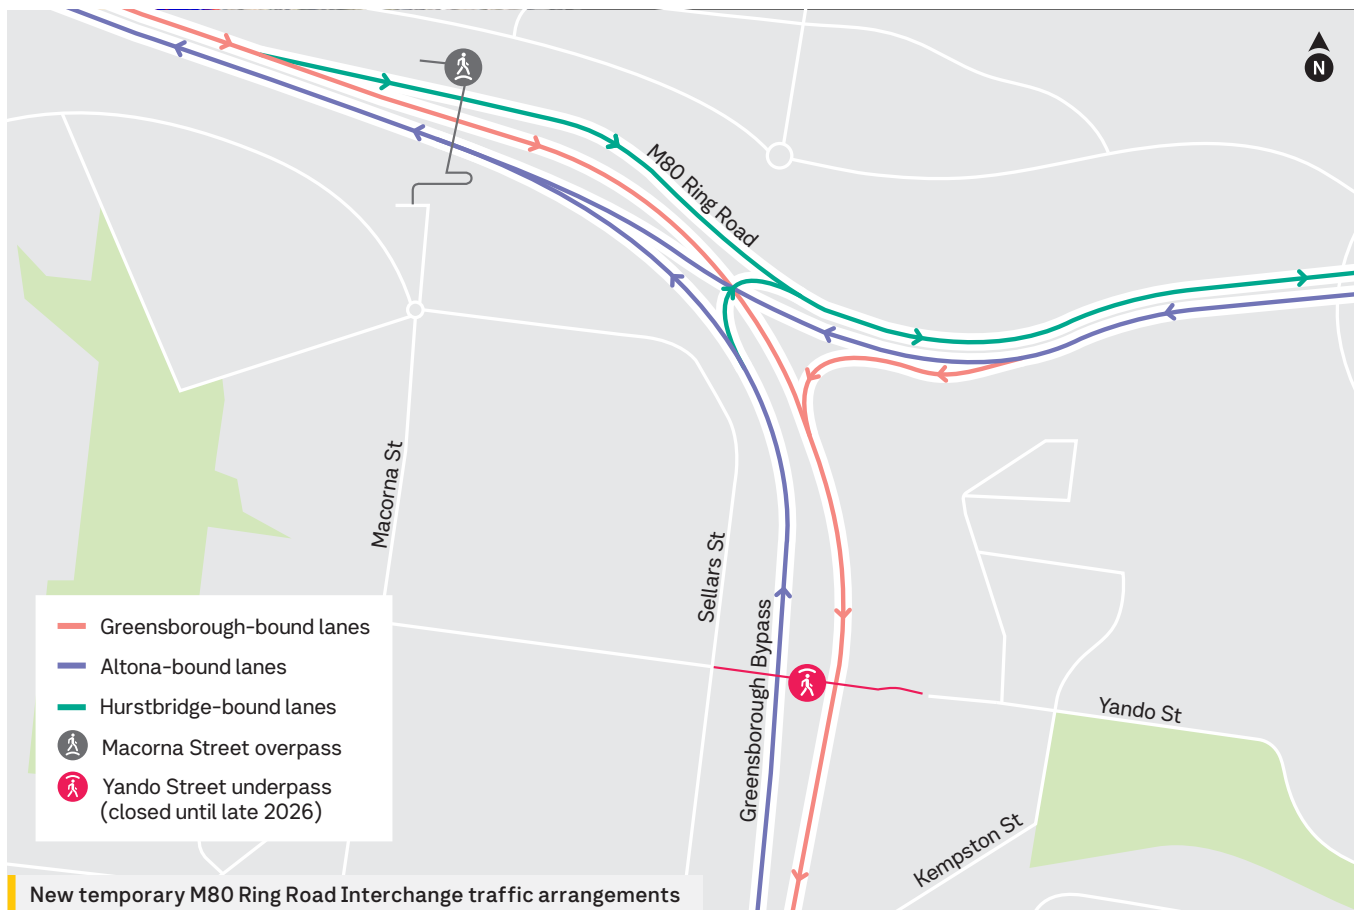

Following works, the way you travel on the M80 Ring Road and Greensborough Bypass will change.

Drivers will use newly built roads for the first time along the M80 Ring Road and Greensborough Bypass.

We'll have clear signage and road markings in place to guide you. Please look out for destination signs earlier on your journey.

To learn more about changes on the M80 Ring Road and how to navigate the area, please visit bigbuild.vic.gov.au/roads/m80rr-interchange or scan the QR code below.

Transport disruptions across the M80 Ring Road Completion project and North East Link Tunnels

Expect intermittent lane, ramp and road closures, and speed reductions at night and on weekends on the M80 Ring Road, Grimshaw Street, Watsonia Road, Greensborough Bypass and Greensborough Highway.

Lane and road closures will be required at times to prepare and shift M80 Ring Road lanes at the interchange and on the Greensborough Bypass. Sections of the M80 Trail and Greensborough Bypass Path are closed with temporary long-term detours in place. In Bulleen, we are completing critical drainage works as part of the construction of the future Manningham Road interchange for the North East Link Tunnels project. As works progress, we'll close lanes on Manningham Road, Bulleen Road, and Bridge Street from mid-September to early October.

Please plan your trip and allow additional travel time. Search bigbuild.vic.gov.au/disruptions for the latest information on traffic disruptions or scan the QR code.

Keeping in touch

We'll be out talking to nearby residents and businesses about these works in more detail, including how we'll be managing any local impacts.
