

# Works Notification

## Temporary partial closure

### Edward Street, Toorak

**November and December 2021**

As previously notified, a partial closure of Edward Street is required to ensure the safety of work force and the community while civil and services works take place in the rail corridor. Local residential vehicle access will be maintained at all times.

#### What we are doing

##### 24-hour rail works

- Installing underground signalling cable assets, conduits and a retaining wall within the rail corridor
- Delivering materials to and from our rail access point at Edward Street
- Works require the use of a concrete pump, excavators, cranes and crews with hand tools.

##### Day works

- Installing fencing and asphaltting the footpath near Canterbury bridge
- Works require the use of a non-destructive digging (NDD) truck, asphalt materials and crews with hand tools.

#### When

##### Day works

- Two days from 7am to 6pm, between Monday 22 November and Saturday 4 December.

##### 24-hour rail works

- 8pm Friday 26 November to 3am Monday 29 November
- 8pm Friday 3 December to 3am Monday 6 December
- 8pm Tuesday 14 December to 3am Friday 24 December.

#### Temporary parking removal on Edward Street

- 6pm Thursday 25 November to 7am Monday 29 December
- 6pm Thursday 2 December to 7am Monday 6 December
- 6pm Monday 13 December to 7am Friday 24 December.

#### What you should be aware of

- These works are expected to generate medium levels of noise with some high-level peaks. Where possible, higher impact works will be scheduled to take place during the day
- These works will include temporary road closures, including parking removal on Edward Street, to ensure delivery activities to the rail access point are undertaken safely and efficiently. Additional truck movements will be required during this time
- Traffic management will be in place along Edward Street to facilitate local vehicles entering and exiting the road. Local residential access will be maintained at all times
- Generator-powered lighting towers are required while we complete night works. Where possible, lights will be positioned to face away from residential properties and noise reduction mats will be placed around generators.
