Dear resident,

Craigieburn Road Upgrade: Craigieburn Road Service Road (between Balyang Way and Aitken Boulevard) access changes

We're upgrading Craigieburn Road to help you get home safer and sooner.

As part of the project, we'll add extra lanes between Hume Highway and Mickleham Road as well as upgrading intersections and building better walking, cycling and public transport connections.

Changes to way you access local streets and service roads

To improve safety and traffic flow along Craigieburn Road we'll need to restrict where cars can turn right across multiple lanes to access driveways and local side roads. This means drivers will need to make a U-turn at dedicated locations to access certain streets and properties.

Access changes to Craigieburn Road Service Road between Balyang Way and Aitken Boulevard

As part of the Upgrade, we'll permanently change access to the Craigieburn Road Service Road.

To turn into the service road from Mickleham Road, continue straight along Craigieburn Road, make a U-turn at the new traffic lights at Balyang Way, then turn left onto Craigieburn Road Service Road.

To head towards the Hume Highway from the service road, turn left onto Craigieburn Road and make a U-turn at the traffic lights at Aitken Boulevard. Please see the map on the next page.

Timing

We'll implement temporary and permanent changes to access at different times during the project. Major construction is expected to start in September 2021, and we'll notify you before any changes are made.

Health and safety

Works on the Craigieburn Road Upgrade are progressing with strict COVIDSafe Plans in place. The health and safety of our workforce and community remains our top priority.
