Cycling, Walking and Pedestrian Update

Charles Fairbairn
CPBJH Joint Venture

More than a road

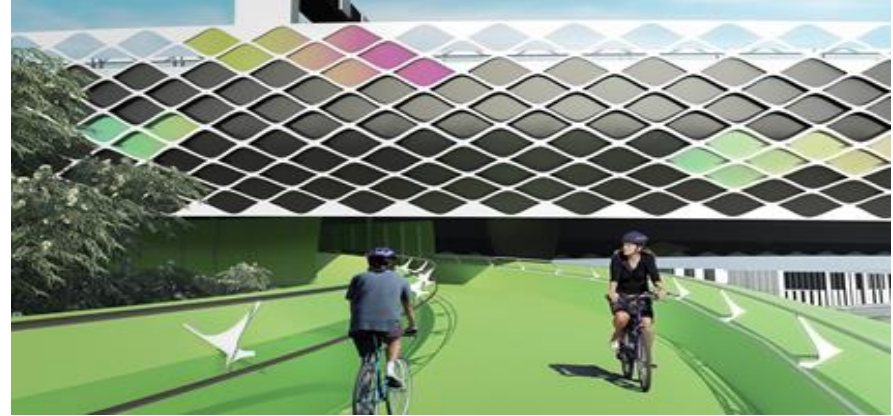

Reducing conflicts
between trucks + local
road users

- 14km of new + improved walking + cycling paths
- 2.5km elevated veloway

9 hectares of new open
space including parks +
wetlands

New and upgraded paths to make cycling safer

New and upgraded paths to make cycling safer

- New off-road path between Fogarty Avenue and Hyde Street
- A new bridge over Whitehall Street will create a link between Yarraville Gardens and the Maribyrnong River
- Upgraded cycling facilities along Hyde Street from Somerville Road
- A new bridge over Footscray Road and a new pedestrian and cycling bridge at Dynon Road

Construction Update

Charles Fairbairn
CPBJH Joint Venture

Current and upcoming works

Temporary noise walls / Rosala Avenue walking and cycling bridge

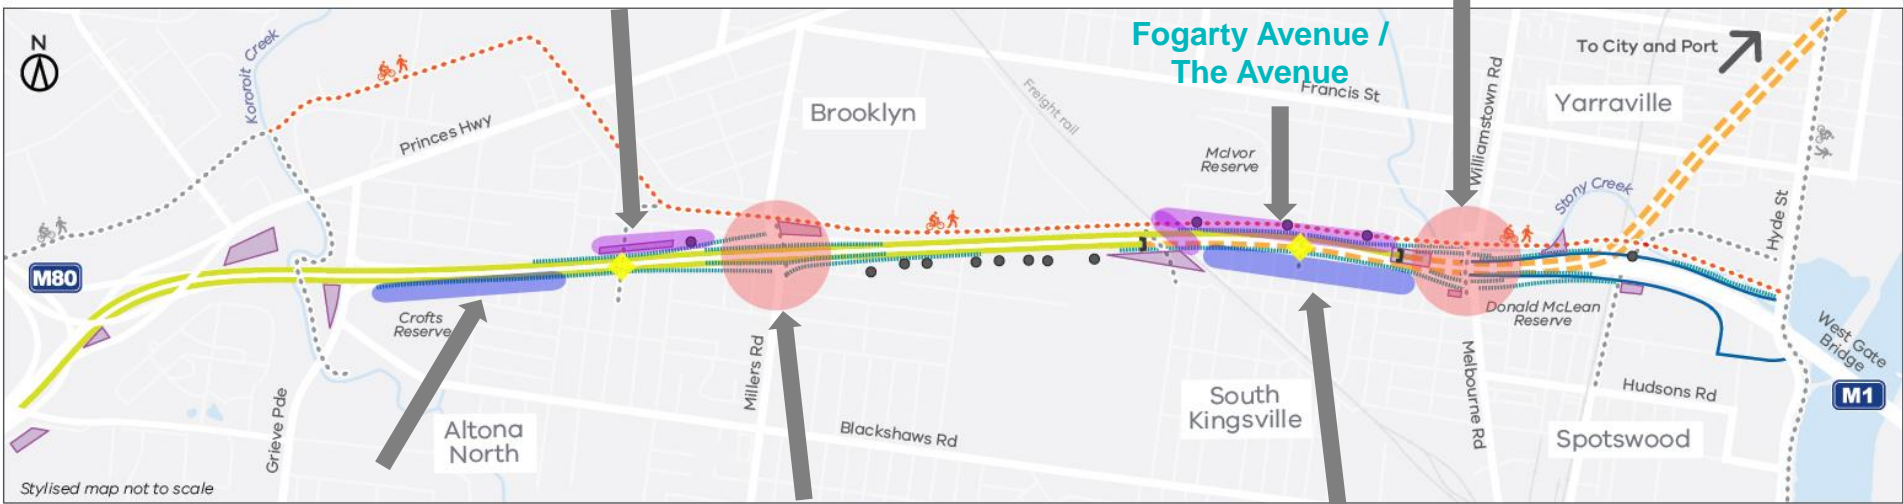

Williamstown Road interchange

Fogarty Avenue / The Avenue

Freeway widening and temporary noise walls

Millers Road interchange

Temporary noise walls / Muir Street walking and cycling bridge

Stylised map not to scale

Williamstown Road interchange

Williamstown Road interchange continued

November/December

- Building the permanent inbound exit ramp at Williamstown Road
- Removal of existing noise wall – end of Williamstown Road inbound exit ramp
- Widening the inbound bridge (freeway) over Williamstown Road
- Excavation of the shaft for the sewer relocation works across Williamstown Road interchange
- Widening the West Gate Freeway centre median

Williamstown Road freeway bridge widening works (looking West)

Williamstown Road interchange continued

November/December

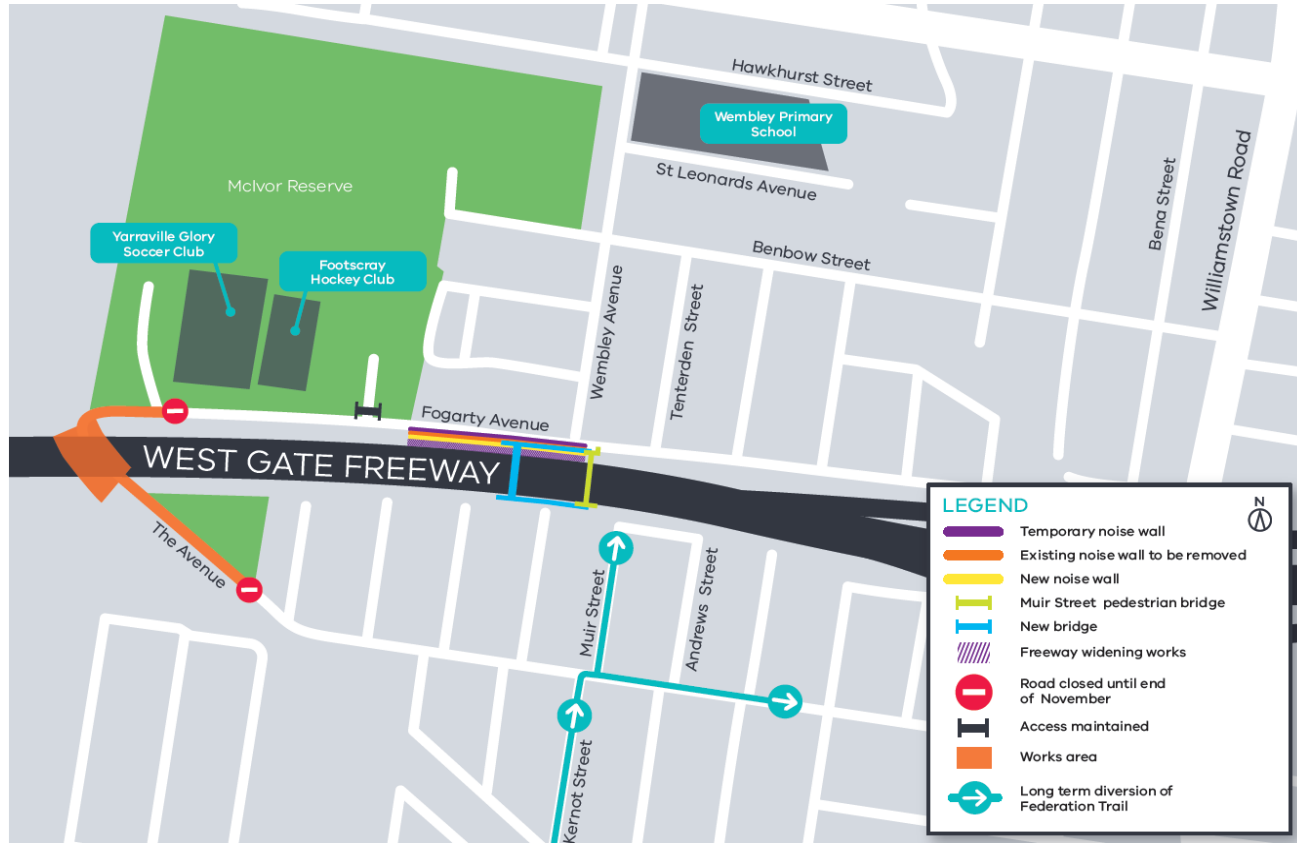

Williamstown Road bridge widening (over freeway)

- Night time closures of the West Gate Freeway to jack up the existing bridge beams and replace the bearings
- Night time closures of Williamstown Road to lift new concrete beams into place
- Concrete pour to join the existing bridge to the newly constructed bridge

Traffic switch late November

- The inbound carriageway will be switched onto newly constructed lane on the approach to Williamstown Road bridge over the freeway

Fogarty Avenue

Fogarty Avenue continued

November – mid 2019

- Temporary noise wall installation
- Temporary noise walls will be installed on Fogarty Avenue between the Hockey Club and Wembley Avenue
- Existing noise walls will be removed once temporary noise walls installed
- Temporary noise walls will remain in place until construction of the new noise walls are complete

Installing foundations for the noise walls

Fogarty Avenue / The Avenue

November/December

Fogarty Avenue

- 66kV relocation works are ongoing
- Stormwater drainage started in late October (completed in stages) – deeper and wider trenches required
- Current stage - closure of Fogarty Avenue / The Avenue until end of November

Newport Rail bridge (The Avenue)

Preparatory works to start in late November including:

- Vegetation removal
- Setting up traffic barriers
- Piling and excavation works

Trenching works on Fogarty Avenue

South of the West Gate Freeway

November/December

- Piling works for new permanent noise walls between Williamstown Road (Melbourne Road) and Newport Rail line
- Piling works for new Muir Street walking and cycling bridge
- Installation of temporary noise wall between Williamstown Road (Melbourne Road) and the Newport Rail line continuing

Temporary noise walls

Millers Road interchange

Millers Road interchange continued

November/December

Widening Millers Road underneath the freeway

- New southbound lane underneath the freeway
- Work switches to building the additional northbound lane later this year

Building temporary and permanent ramps

- Millers Road temporary inbound and outbound exit ramps
- Millers Road permanent inbound entry ramp

Tree removal

- Millers Road outbound exit ramp and sections along Beevers Street

Beevers Street

- 66kv relocation works still in planning phase

Millers Road interchange continued

Walking and cycling bridge – Rosala Avenue / Richards Court

- Setting up site in reserve near Buchanan Road through to Primula Avenue
- Piling works for foundation of walking and cycling bridge
- Rosala Avenue pedestrian overpass will remain open during these works

Installation of temporary noise walls

- Adjacent to residential fences from the reserve near Buchanan Road through to Millers Road
- Millers Road outbound exit ramp and sections along Beevers Street

Paringa Road works began in late September

- Long-term closure of Paringa Road from Millers Road
- Gas and telecommunication relocations underway

Long term closure of Paringa Road from Millers Road

West Gate Freeway - Chambers Road to Grieve Parade

West Gate Freeway - Chambers Road to Grieve Parade

November/December

- **Local road closures**
- Widening works in this area require some temporary road closures to be put in place between:
 - Freemans Road;
 - Misten Avenue;
 - Rosala Avenue; and
 - Irwin Avenue.
- **Temporary and new noise walls**
- Installing a temporary noise wall between Freemans Road and Chambers Road
- Removing the existing noise wall following the installation of the temporary noise wall
- Foundations for the new permanent noise wall with piling starting early next year

Access to all properties will be maintained although some properties will experience changes to the way they access their property.

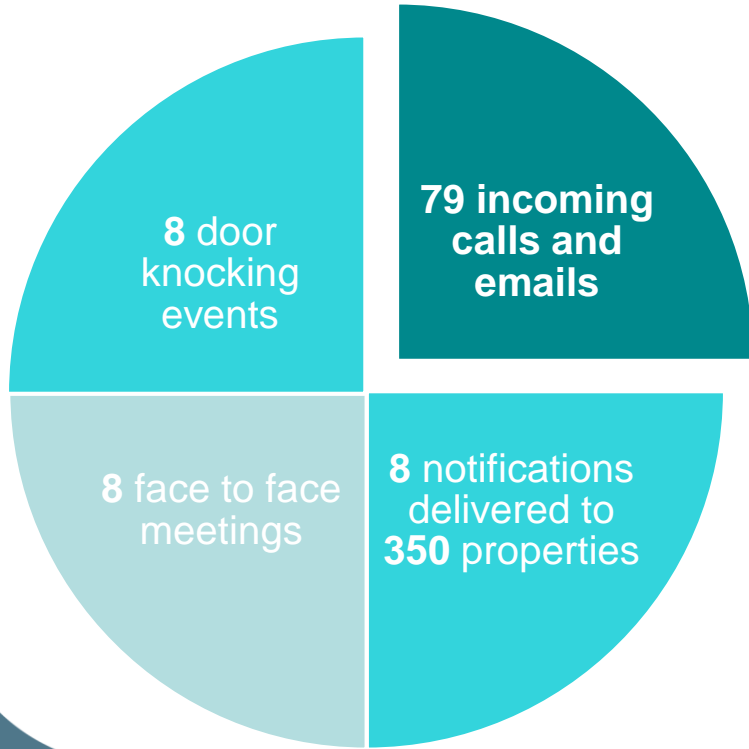

Postponed works

- **220kv power line works, monopole installation and Muir Street pedestrian overpass**
- Temporary closure of the pedestrian overpass connecting Muir Street and Fogarty Avenue has been postponed
- Enabling the safe relocation of high voltage power lines
- **Working with AusNet on determining the best time to complete these works.**

Keeping communities informed
