# Overview

Attachment 3: Visualisation Design has been prepared as an attachment of the Urban Design and Landscape Plan (UDLP) associated with the Eastern Freeway Upgrades – Tram Road to Springvale Road (the Project).

Attachment 3: Visualisation Design contains the 3D renders (visualisations) for the Project, including views of the civil, architecture, urban and landscape designs from both ground level and aerial perspectives.

The visualisations and images presented are indicative and provided for context only, and this Attachment does not form part of the UDLP approval. This Attachment should be read in conjunction with:

- UDLP Report
- Attachment 1: Architecture and Urban Design
- Attachment 3: Visualisations
- Attachment 4: Overshadowing and Overlooking Assessment

Key considerations to the information contained in this package include:

- Views of key urban design elements such as shared use paths, open spaces, shared use path bridges, noise walls and retaining walls
- Materials, finishes and structural systems represent proposed outcomes, subject to design development
- Views from the perspective of road users and shared use path users as well as resident and community views.

The siting of road infrastructure elements such as gantries and light poles are shown indicatively.
