

Works notice

Overhead protection gantry installation Royston Place, Melbourne

Friday 10 November to Monday 13 November 2023

As part of Metro Tunnel works, an overhead protection gantry will be installed along the western side of the Flinders Quarter site where it adjoins Royston Place. This gantry will ensure the laneway is safe to access while above ground construction is underway.

What we are doing

- Installing an overhead protection gantry in Royston Place, along the western side of the Flinders Quarter site
- Works will include the use of rattle guns, hand tools and the tower crane to erect steel to form the gantry.

What to be aware of

- Royston Place will be closed to vehicle access during these works
- Work hours will be 24 hours on the Saturday and Sunday to minimise the impact on laneway operations during the week
- These works will generate some periods of medium to high level noise
- Every effort will be made to undertake noisier works during daytime hours

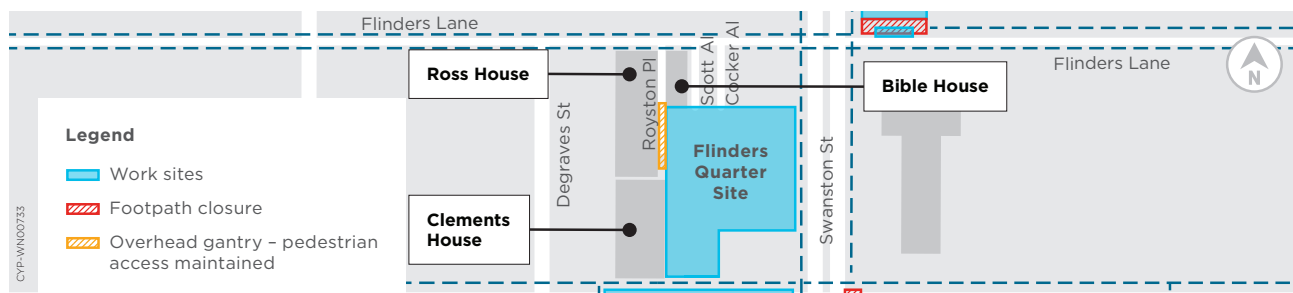

- Once installed, the gantry will remain in place long-term while above ground construction progresses
- The gantry will not impede access to the carpark situated off Royston Place
- Similar gantries will also be installed in Scott Alley and Cocker Alley in the coming weeks. More information to come.

When

- 6pm Friday 10 November until 6pm Monday 13 November.

We appreciate your patience while we undertake these works.

If you have any questions or concerns, please contact the Metro Tunnel Project Information Line on **1800 105 105**. Further information on Town Hall Station works can be found at metro.tunnel.vic.gov.au
