UPDATE: PLANNED WORKS FOR FREDERICK STREET IN MAY

Recharge Wells Installation – From 6 May 2019

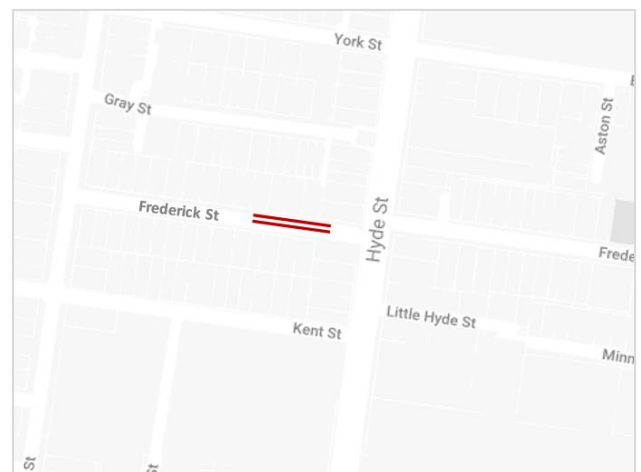

In April 2019, works commenced on the installation of the ground water recharge system in Yarraville. Due to ground conditions and some rescheduling of the program, works will continue on the construction of the Frederick Street recharge well throughout May 2019.

This will include installing a covered pit in Frederick Street and running water and electricity connections to a nearby panel box. The recharge system is designed to manage any impact to the groundwater table around the tunnel alignment during construction.

The recharge well will be in operation throughout tunnel construction and will remain in place until the permanent structures are complete, which will be approximately 12 – 24 months.

What to expect:

- Road closures may be required for periods of time throughout May. If you need further details of road closures, please contact us.
- Work hours 7am – 6pm (Monday – Saturday)
- Access to private properties will be maintained throughout the works under traffic management;
- On street parking inside the work zone will be temporarily removed during the works.
- Pedestrian footpath closures may be required at times.
- Every 3 months we may require access to the panel box and recharge well for maintenance.

The red area shows the approximate location for the recharge well works in May.

WANT TO BE KEPT IN THE LOOP FOR ROAD CLOSURES OR WORKS IN FREDERICK STREET?

If you would like email updates for the works in this notification please email the project team at info@wgta.vic.gov.au and type “**Frederick St Updates**” in the subject line.

While we expect this work will have some low level associated noise during the day, we will take steps to minimise noise and will monitor any impacts. Thank you for your patience while we undertake these important activities.

Please note that works are subject to change and could be rescheduled in the event of bad weather or there are updates to the investigations scheduled.
